Temples of Delight John Martin Robinson,1990 **Temples of Delight** John Martin Robinson,National Trust (Great Britain),1990 **Estate Landscapes : Design, Improvement and Power in the Post-medieval Landscape** Jonathan Finch,Katherine Giles,2007 An exciting study of the social and landscape phenomena of the Estate Landscape In recent years the post medieval landscape has attracted new interest from archaeologists historians and geographers concerned to understand the development of the historic environment One of the key structuring elements within these landscapes from the sixteenth century until the aftermath of the Second World War was undoubtedly the landed estate However it was not until the late nineteenth century that any systematic attempt to quantify the presence of these estates was undertaken prompted by the move to democratic reform and the persistent link between political power and landed wealth Yet the importance of the landed estate in structuring power social relationships and both agricultural and industrial production was not limited to the UK From the eighteenth century the link between the UK estates and patterns of landholding and exploitation in the colonies became increasingly complex and recursive This volume explores the relationships between the form and structure of British and Colonial estate landscapes their agricultural management and the political structures and social relationships they reproduced The articles address themes as diverse as the creation and development of the agrarian landscape improvement ornamental landscapes and gardens and estate architecture Overall it highlights the wealth and diversity of existing scholarship and suggests new directions for post medieval archaeology in this dynamic area of research

A reader in the United States The ironic last sentence was perfect One thing for sure is that I m even more determined to visit the Desert because of the book What an incredibly interesting man and what a life Readers in France Je voulais vous dire toute mon admiration pour le travail fabuleux que vous avez effectu ainsi que pour la qualit de cette uvre que je parcours avec le plus grand int r t Votre livre est p tri de tendresse pour la France A reader in the United Kingdom You are giving me lots of micro biographies of people I d never heard of and therefore ought not to be interested in logically I should be bored stiff but in fact not at all Don t know how you do it but the damn thing is highly readable A reader in Mexico I finished your wonderful book yesterday and I am truly delighted I really adored it It was like a trip in Time and Space I could imagine myself in those places with the people you talk about

The Quest for the Gesamtkunstwerk and Richard Wagner Hilda Meldrum Brown,2016 The Gesamtkunstwerk total work of art once a key concept in Wagner studies has become problematic This book sheds light on this conundrum by first tracing the development of the concept in the 19th century through selected examples some of which include combinations of different art forms It then focuses on the culmination of the Gesamtkunstwerk in Wagner s theories and in the practice of his late music dramas of which Der Ring des Nibelungen is the most complete representation Finally the book contrasts the view of the Ring as a fusion of dramatic text and music with the 20th century trend towards Deconstruction in Wagnerian productions and the importance of R gie Against this trend a case is made here for a fresh critical approach and a reconsideration of the nature and basis for the fundamental unity which has hitherto been widely perceived in Wagner s Ring Approaches through Leitmotiv alone are no longer acceptable However in conjunction with another principle Moment which Wagner insisted on combining with Motive these can be ingeniously staged and steered to dramatic ends by means of musical dynamics and expressive devices such as accumulation Analysis of the two Erda scenes demonstrates how this complex combination of resources acts as a powerful means of fusion of the musical and dramatic elements in the Ring and confirms its status as a Gesamtkunstwerk

The Princess's Garden Vanessa Berridge,2015-08-15 The untold story of how our national obsession with gardening came to be

A Fenland Garden Francis Pryor,2023-07-06 The story of how Francis Pryor created a haven for people plants and wildlife in a remote corner of the fens A Fenland Garden is the story of the creation of a garden in a complex and fragile English landscape the Fens of southern Lincolnshire by a writer who has a very particular relationship with landscape and the soil thanks to his distinguished career as an archaeologist and discoverer of

some of England's earliest field systems. It describes the imagining, planning and building of a garden in an unfamiliar and sometimes hostile place and the challenges, setbacks and joys these processes entail. This is a narrative of the making of a garden, but it is also about reclaiming a patch of ground for nature and wildlife, of repairing the damage done to a small slice of Fenland landscape by decades of intensive farming. *A Fenland Garden* is informed by the empirical wisdom of a practising gardener and archaeologist and by his deep understanding of the soil, landscape and weather of the region. Francis's account of the development of the garden is counterpointed by fascinating nuggets of Fenland lore and history as well as by vignettes of the plantsman's trials and tribulations as he works an exceptionally demanding plot of land. Above all, this is the story of bringing something beautiful into being, of embedding a garden in the local landscape and thereby of deepening and broadening the idea of home. *Great British Gardeners* Vanessa Berridge, 2018-05-15. Through the stories of twenty-six inspiring figures, from Capability Brown, Humphry Repton and Vita Sackville-West to lesser-known figures and present-day gardeners such as Beth Chatto and John Brookes, this book brings the colourful history of British gardening to life. *Gothic Antiquity* Dale Townshend, 2019. The first closely historicized study of the relationship between Gothic architecture and Gothic and Romantic literature.
