Ten Years In Nevada Or Life On The Pacific Coast:

Ten Years in Nevada Mary McNair Mathews, 1985-01-01 Virginia City Nevada was between bonanza and borrasca when Mary McNair Mathews and her young son went there in 1869 to investigate the murder of her brother and sort out his affairs The widow from Buffalo New York stayed in the West for almost ten years Out of that time came these reminiscences of life in Nevada and California mining towns including Virginia City Gold Hill Silver City Sutro You Bet Nevada City and Red Dog These pages reveal a proud independent minded woman eccentric and sometimes bigoted Not without a social conscience she helped the unemployed and fought intemperance and child abuse In a hard place Mary Mathews survived by sewing and keeping lodgers finally improving her lot by investing her earnings from mining stock in real estate Ten Years in Nevada is a rare portrait of a businesswoman and small scale entrepreneur on the frontier As Mary Lee and Clark C Spence point out in their foreword Her presence in Virginia City belies the old idea that women went west only with their husbands or as prostitutes or school teachers How Mary Mathews in many respects an ordinary middle class woman responded to everyday problems in a rich rough mining town is important to understanding what made nineteenth century America tick **TEN**

The Townsend Family in the Emerging American West, 1856-1926 Susan E.

James, 2024-11-18 This book examines the life of the Townsend family and the events that occurred during the period of 1856-1926 that shaped an expanding American West. Bryant and Julia Riley Townsend and their three children were born into an age of rapid change and competing cultures. Witnesses to a century of events that shaped a nation, their lives define the complexities and challenges of incomers who arrived in an expanding American West. From the Gold Rush to the California oil boom, from slavery to female suffrage, from Indian Wars to World Wars, the Townsends lived through violent upheavals, outlasting cities, societal beliefs, and entire ways of life. Married in a mining camp in Nevada and relocating frequently, the couple embraced the momentary riches, shattering losses, and personal disasters faced by a vast number of immigrants, foreign and domestic, striving to survive in an often hostile landscape. Their lives and those of their three children, Minnie, Edith, and Bryant, form the architecture supporting an examination of multiple facets of the Western experience and are exemplars of the different populations that merged to form the American identity. This volume will be of value to students and scholars interested in American history, social and cultural history, and modern history. **Alcohol and Opium in the Old West** Jeremy Agnew, 2013-10-17 This book explores the role and influence of drink and drugs, primarily opium, in the Old West, which for this book is considered to be America west of the Mississippi, from the California gold rush of the 1840s to the closing of the Western Frontier in roughly 1900. This period was the first time in American history that heavy drinking and drug abuse became a major social concern. Drinking was considered to be an accepted pursuit for men at the time; smoking opium was considered to be deviant and associated with groups on the fringes of mainstream society, but opium use and addiction by women was commonplace. This book presents the background of both substances and how their use spread across the West at first for medicinal purposes but how overuse and abuse led to the Temperance Movement and eventually to National Prohibition. This book reports the historical reality of alcohol and opium use in the Old West without bias.

Historic Nevada Waters Hunt Janin, Ursula Carlson, 2019-04-12 The Great Basin is a hydrographic region that includes most of Nevada and parts of five other Western states. The histories of four of the Western rivers of the Great Basin, the Walker, the Truckee, the Carson, and the Humboldt, are explored in this book along with three of the western lakes of the Great Basin, Lake Tahoe, Pyramid Lake, and Walker Lake. Drawing on a range of sources, the coauthors address both the natural and the human aspects of the history and likely futures of Great Basin waterways. Beware Euphoria George Fisher, 2024 George Fisher seeks the moral roots of America's antidrug regime and challenges claims that early antidrug laws arose from

racial animus Those moral roots trace to early Christian sexual strictures which later influenced Puritan condemnations of drunkenness and ultimately shaped the early American drug war Early laws against opium dens cocaine and cannabis rarely rose from racial strife but sprang from the traditional moral censure of intoxication and perceived threats to respectable white women and youth The book closes with an examination of cannabis legalization driven in part by the movement for racial justice

Westering Women and the Frontier Experience, 1800-1915 Sandra L. Myres, 1982 Contains letters journals and reminiscences showing the impact of the frontier on women's lives and the role of women in the West

Women Writers of the American West, 1833-1927 Nina Baym, 2012-08-17 This book recovers the names and works of women who wrote about the American West during the nineteenth and early twentieth centuries some of them long forgotten and others better known such as Willa Cather and Mary Austin Holley It reveals how the authors showed women making lives for themselves in the West how they represented the diverse region and how they represented themselves
