## **Tenth Muse The Psyche Of The American Poet:**

**The Tenth Muse** Albert Gelpi, 1991-09-27 The Tenth Muse considers the debate between intellect and passion apparent in the work of poets from Bradstreet to Rich **Derek Mahon: A Retrospective** Nicholas Grene, Tom Walker, 2024-09-17 Derek Mahon 1941 2020 is widely recognized as one of the most important Irish poets of his generation This collection of new critical essays offers an important retrospective assessment of the nature of his poetic achievement Bringing together many leading scholars of modern and contemporary Irish poetry including a notable number of accomplished poet critics its contributors range widely across Mahon s body of work Their essays offer fresh considerations of the biographical geographical and literary contexts that shaped his poetic voice This includes paying attention not only to more familiar influences but also to previously little considered interlocutors The stylistic and formal achievement of his voice is re evaluated in ways that range from attentive close readings to considerations of his controversial practice of self revision and his engagements with music and experiments in translation The politics of a poet often misleadingly considered apolitical are also reframed to take in the engagements of his early work through to the ecocritical commitment of his later poetry Indeed a notable aspect of this book is the consideration it gives to all the phases of Mahon s career As a whole the collection opens up many new ways of reading and understanding Mahon s important body of work **The Grounding of American Poetry** Stephen Fredman, 1993-05-28 His argument focuses on four pairs of poets Eliot Williams Thoreau Olson Emerson Duncan and Whitman Creeley and points out that although Williams Olson Duncan and Creeley are all influenced by these predecessors to some extent ultimately their poetry is paradoxically grounded in an essential groundlessness *American Poets and Poetry* Jeffrey Gray, Mary McAleer Balkun, James McCorkle, 2015-03-10 The ethnically diverse scope broad chronological coverage and mix of biographical critical historical political and cultural entries make this the most useful and exciting poetry reference of its kind for students today American poetry springs up out of all walks of life its poems are maternal as well as paternal stuff d with the stuff that is coarse and stuff d with the stuff that is fine as Walt Whitman wrote adding Of every hue and caste am I of every rank and religion Written for high school and undergraduate students this two volume encyclopedia covers U S poetry from the Colonial era to the present offering full treatments of hundreds of key poets of the American canon What sets this reference apart is that it also discusses events movements schools and poetic approaches placing poets in their social historical political cultural and critical contexts and showing how their works mirror the eras in which they were written Readers will learn about surrealism ekphrastic poetry pastoral elegy the Black Mountain poets and language poetry There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry Particular attention is paid to women poets and poets from various ethnic groups Poets such as Amiri Baraka Nathaniel Mackey Natasha Trethewey and Tracy Smith are featured The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant garde

and experimental movements and provides sidebars that illuminate key points

**Poet's Prose** Stephen Fredman,1990-11-30 Poet's Prose is devoted exclusively to American prose poetry and has been recognised as a pioneering study in contemporary American poetry

The Cambridge Companion to American Poets Mark Richardson,2015-10-15 This Companion brings together essays on some fifty four American poets from Anne Bradstreet to contemporary performance poetry This book also examines such movements in American poetry as modernism the Harlem or New Negro Renaissance confessional poetry the Black Mountain School the New York School the Beats and L A N G U A G E poetry

*The Masochistic Pleasures of Sentimental Literature* Marianne Noble,2000-04-04 For generations critics have noticed in nineteenth century American women's sentimentality a streak of masochism but their discussions of it have over simplified its complex relationship to women's power Marianne Noble argues that tropes of eroticized domination in sentimental literature must be recognized for what they were a double edged sword of both oppression and empowerment She begins by exploring the cultural forces that came together to create this ideology of desire particularly Protestant discourses relating suffering to love and middle class discourses of true womanhood She goes on to demonstrate how sentimental literature takes advantage of the expressive power in the convergence of these two discourses to imagine women's romantic desire Therefore in sentimental literature images of eroticized domination are not antithetical to female pleasure but rather can be constitutive of it The book however does not simply celebrate that fact In readings of Warner's *The Wide Wide World* Stowe's *Uncle Tom's Cabin* and Dickinson's sentimental poetry it addresses the complex benefits and costs of nineteenth century women's literary masochism Ultimately it shows how these authors both exploited and were shaped by this discursive practice *The Masochistic Pleasures of Sentimental Literature* exemplifies new trends in Third Wave feminist scholarship presenting cultural and historical research informed by clear lucid discussions of psychoanalytic and literary theory It demonstrates that contemporary theories of masochism including those of Deleuze Bataille Kristeva Benjamin Bersani Noyes Mansfield are more relevant and comprehensible when considered in relation to sentimental literature

**Literature and Theory** Sk Sagir Ali,2022-06-07 Literature and Theory is designed to assist students to apply key critical theories to literary texts Focusing on representative works and authors widely taught across classrooms in the world Joyce Dickinson Shakespeare Beckett Eliot and Octavia Butler it picks up different aspects of studying literature in an accessible format The volume also brings together chapters that represent major modern literary schools of thought including structuralism poststructuralism myth criticism queer theory feminism postcolonialism and deconstruction This book will be of great interest to scholars and researchers of literary and critical theory as well as culture studies

**Walt Whitman and Emily Dickinson** Agnieszka Salska,2016-11-11 Agnieszka Salska's illuminating study of the patterns of consciousness in the poetry of two major nineteenth century American poets borrows from Northrop Frye's phrase the structure of the poet's imagination Walt Whitman and Emily Dickinson the first extensive book comparing the two poets builds on the shorter works by Karl

Keller and Albert Gelpi and is further augmented by Salska's outside viewpoint from her native Poland. Her extensive research in the United States in 1984 ensures the timeliness of the work and makes the study truly valuable. That Dickinson and Whitman shared a common ground of aspiration for existential wholeness is made clearer to twentieth century readers by Salska's argument which traces the poets' heritage from Ralph Waldo Emerson. Although both poets begin with the same vision that the artist's mind is solely responsible for the organization of the universe, their realizations of that image diverge radically. Salska's keen judicious observations add much to our understanding of the poets both as individuals and as contemporaries. Her book will be of great interest to students of Whitman and Dickinson poetry and American literature. The clarity of style makes the book invaluable to undergraduates, graduate students and scholars in general. **A Place for**

**Humility** Christine Gerhardt, 2014-09-01 Emily Dickinson and Walt Whitman are widely acknowledged as two of America's foremost nature poets primarily due to their explorations of natural phenomena as evocative symbols for cultural developments, individual experiences and poetry itself. Yet for all their metaphorical suggestiveness, Dickinson's and Whitman's poems about the natural world neither preclude nor erase nature's relevance as an actual living environment. In their respective poetic projects, the earth matters both figuratively as a realm of the imagination and also as the physical ground that is profoundly affected by human action. This double perspective and the ways in which it intersects with their formal innovations points beyond their traditional status as curiously disparate icons of American nature poetry. That both of them not only approach nature as an important subject in its own right but also address human nature relationships in ethical terms invests their work with important environmental overtones. Dickinson and Whitman developed their environmentally suggestive poetics at roughly the same historical moment at a time when a major shift was occurring in American culture's view and understanding of the natural world. Just as they were achieving poetic maturity, the dominant view of wilderness was beginning to shift from obstacle or exploitable resource to an endangered treasure in need of conservation and preservation. *A Place for Humility* examines Dickinson's and Whitman's poetry in conjunction with this important change in American environmental perception, exploring the links between their poetic projects within the context of developing nineteenth century environmental thought. Christine Gerhardt argues that each author's poetry participates in this shift in different but related ways and that their involvement with their culture's growing environmental sensibilities constitutes an important connection between their disparate poetic projects. There may be few direct links between Dickinson's letter to the World and Whitman's language experiment but via a web of environmentally oriented discourses, their poetry engages in a cultural conversation about the natural world and the possibilities and limitations of writing about it, a conversation in which their thematic and formal choices meet on a surprising number of levels.
