Teorías Sobre La Plusvalía Tomo Iv De El Capital:

Teorías sobre la plusvalía Karl Marx,1980 *Gentrification as a Global Strategy* Abel Albet,Núria Benach,2017-07-14

This book pays homage to Neil Smith's ideas offering a critical approach and rich collection of insights that draw on Smith's work for inspiration and debate. With interdisciplinary and international contributions from leading experts, the book demonstrates the impact of Smith's ideas on understanding the role of urbanisation in general and gentrification in particular in contemporary society. The book demonstrates how gentrification varies significantly from city to city across different cultural and political economic regimes and in terms of the timing of urban transformations. This collection provides a forum for debate for those working in urban regeneration and citizenship and those directly affected by the processes and problems arising from gentrification. It will be of interest to students and scholars in urban geography, urban sociology, cultural studies and wider social and urban theories. **El capital: crítica de la economía política, tomo I, libro I** Karl Marx,2014-06-23

La obra se considera como un cleo de la teoría del nacimiento y de la circulación del capital así como de su función determinante en el proceso entero de los bienes económicos. Matari Pierre,2023-06-22 Rasgo distintivo de la era neoliberal la dominación de los poderes públicos por las finanzas subyace y condiciona los problemas sociopolíticos contemporáneos. El presente libro analiza la naturaleza y evolución de las relaciones entre el Estado y el capital financiero. Sostiene que la dinámica de esas relaciones conduce a la dominación del primero por el segundo. No obstante más que la opresión de oligarquías rentistas el fenómeno indica un alto grado de socialización de los recursos productivos y distributivos al tiempo que crea mecanismos para su apropiación y gestión colectivas. El Leviatán domesticado considera el alineamiento de las prácticas estatales sobre los intereses financieros en dos niveles: la evolución de la política económica y la organización interna de la máquina de Estado. El primer nivel remite prioritariamente a la actualización de los vínculos entre el Banco Central y la Hacienda. El segundo remite a la idea de administrar el Estado como una gran empresa es decir a la introducción de procedimientos de management corporativo en la organización y funcionamiento de los poderes públicos. Ambos develan cómo la lógica financiera orienta la acción estatal al tiempo que penetra y moldea las instituciones ejecutoras de los poderes públicos. Situado en el terreno de la economía política El Leviatán domesticado es una contribución al análisis de la formación del Estado al servicio del capital financiero y al esclarecimiento de sus diferentes facetas. Metodológicamente abona a la reflexión sobre los vínculos entre las formas de Estado y las condiciones de acumulación.
