Terepia Ocupacional:

Terapia Ocupacional Teoria y Tecnicas Romero, Dulce María Romero Ayuso, Pedro Moruno Miralles, Moruno, 2003-03 La obra se divide en tres partes en la primera se tratan contenidos de carácter teórico y metodológico en la segunda se abordan los aspectos técnicos ligados a la práctica profesional y en la tercera se apuntan las distintas áreas de intervención de la terapia ocupacional y los nuevos ámbitos de actuación: mantenimiento productivo y ocio. El libro está destinado a los alumnos de las diplomaturas de terapia ocupacional como texto de referencia de varias asignaturas troncales incluidas en los planes de estudio de las diferentes universidades. También es de utilidad en el ámbito profesional ya que desarrolla los aspectos nucleares de las habilidades prácticas de los profesionales de la terapia ocupacional y las principales áreas de intervención para el desempeño profesional. Con esta obra se cubre una necesidad importante del colectivo profesional. El mercado en lengua castellana carece de obras que estructuren y desarrollen los contenidos más teóricos de la disciplina. Posee productos específicos ligados a poblaciones concretas de intervención. Tras dos partes que exponen contenidos más teóricos se trata la trayectoria histórica de esta disciplina así como los principales modelos metodológicos de evaluación de los casos y herramientas de intervención. En la tercera se dan a conocer las interrelaciones entre la terapia ocupacional con otras disciplinas como la psicología clínica o la psiquiatría y con las nuevas tecnologías. Orienta sobre cómo moverse en la parcela de la práctica profesional en distintos ambientes: búsqueda de información complementaria, etc.

Conceptos Fundamentales de Terapia Ocupacional Begoña Polonio López, Pilar Durante Molina, Blanca Noya Arnaiz, 2001. Un valioso texto para los terapeutas ocupacionales de hoy. Es el primero de un género escrito íntegramente por terapeutas ocupacionales desde una perspectiva rigurosa que intenta reflejar la realidad conjugando los aspectos teóricos y prácticos de la profesión. Proporciona una visión general de las características de la intervención ocupacional así como de los modelos profesionales y su evolución en el nuevo milenio.

Terapia ocupacional Elizabeth Blesedell Crepeau, Ellen S. Cohn (OTR.), Barbara A. Boyt Schell, 2005. El objetivo fue y es dar respuesta a la consulta de los alumnos y personas que se interesan por la materia. Esta décima edición si bien retiene gran parte de la estructura organizativa básica de la anterior incorpora nuevos capítulos y características. Esta edición adopta la nueva terminología de la International Classification of Function, antes conocida como ICIDH 2 y el Occupational Therapy Practice Framework de la American Occupational Therapy Association. En todo el libro existen características especiales que amplían y extienden el texto del capítulo. Además de los estudios de casos y de los análisis de casos el lector encontrará notas de investigación e historia. Muchos de estos apartados plantean interrogantes que el estudiante debe reflexionar y analizar. Los apéndices incluyen un cuadro que describe evaluaciones de uso frecuente y sus fuentes. Una obra con enfoque en las preguntas que deseaban conocer tanto los alumnos como los profesionales sobre terapia ocupacional.

Terapia Ocupacional en Discapacitados Físicos. Teoría y Práctica Begoña Polonio López, 2004. *Fundamentos Conceptuales de Terapia Ocupacional*. Gary Kielhofner, 2006. Esta tercera edición brinda una detallada perspectiva general de

la evolución en el estado actual y el futuro del conocimiento en apoyo de la práctica de la terapia ocupacional Presenta un marco para la comprensión de qué clase de conocimiento es necesario para apoyar la práctica y examina de modo crítico el conocimiento existente en la disciplina
