Arthur Andrew Demarest

Terminal Classic In The Maya Lowlands:

The Terminal Classic in the Maya Lowlands Arthur Andrew Demarest, Prudence M. Rice, Don S. Rice, 2005 The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology the apparent collapse of Classic Maya civilization from roughly A.D. 830 to 950. During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period. Archaeological fieldwork during the past three decades however has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society revealing a period of cultural change more complex than acknowledged by traditional models. Featuring an impressive roster of scholars The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands. Although the research reveals clear interregional patterns the contributors resist a single overarching explanation. Rather this volume's diverse and nuanced interpretations provide a new more properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization. A Consideration of the Terminal Classic Period in the Southern Maya Lowlands Gregory A. Wolff, 1997 *Geographies of Power* Sandra L. López Varela, Antonia E. Foias, 2005 Twelve contributors present the contents of the Terminal Classic the Mayan Lowlands Central America ceramic complexes in their area of study and discuss them against the complexity and diversity of social processes illuminated by recent investigations. Contents: An Introduction to Geographies of Power Sandra L. Lopez Varela and Antonia E. **The Petexbatun Regional Archaeological Project** Arthur Andrew Demarest, 2006 Then based on the project's findings Demarest presents interpretive reconstructions of the linked histories of the Pasión River kingdoms and correlates these interpretations with the variable evidence and culture histories of other regions of the Classic Maya lowlands. He points out that only through linking such accurate regional culture histories can we begin to understand the eighth through tenth century changes in Classic Maya civilization. The volume describes how the Petexbatun project addressed this challenge in its research design structure and large multicentered zone of study. Building on the previous twenty years of Harvard research in adjacent zones the Vanderbilt projects succeeded in reconstructing events and processes throughout the Pasión River Valley the largest single inland trade route of the ancient Maya world. **The Ancient Maya, 6th Edition** Robert J. Sharer, Loa P. Traxler, 2006 The rich findings of recent exploration and research are incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people. New field discoveries new technical advances new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary. **Fine Paste Wares in the Late and Terminal Classic Maya Lowlands** Mary Elizabeth Pye, 1985 Cities of the Maya in Seven Epochs, 1250 B.C. to A.D. 1903 Steve Glassman, Armando Anaya, 2014-01-10 Telling the story of the Maya peoples from their earliest beginnings to the start of the 20th century this book divides the 3 000 year time span into seven distinct sections. Each

provides a detailed vignette of the events explorers and people of a particular Maya era starting with the tropical lowlands Olmec civilization Among the topics covered are the shamanistic rites by which Mesoamerican monarchs based their power to rule the Preclassic megacity of El Mirador and its near neighbor Nakbe the Maya creation myth of the Hero Twins and its role in organizing Maya society and the power struggles between the cities Tikal and Calakmul

The Give and Take of Sustainability Michelle Hegmon, 2017-04-24 In this book ethnographical and archaeological perspectives on tradeoffs help the reader to think about hard choices and how to make better decisions today and tomorrow

Kukulcan's Realm Marilyn Masson, Carlos Peraza Lope, 2014-11-15 Kukulcan's Realm chronicles the fabric of socioeconomic relationships and religious practice that bound the Postclassic Maya city of Mayapán's urban residents together for nearly three centuries Presenting results of ten years of household archaeology at the city including field research and laboratory analysis the book discusses the social political economic and ideological makeup of this complex urban center Masson and Peraza Lope's detailed overview provides evidence of a vibrant market economy that played a critical role in the city's political and economic success They offer new perspectives from the homes of governing elites secondary administrators affluent artisans and poorer members of the service industries Household occupational specialists depended on regional trade for basic provisions that were essential to crafting industries sustenance and quality of life Settlement patterns reveal intricate relationships of households with neighbors garden plots cultivable fields thoroughfares and resources Urban planning endeavored to unite the cityscape and to integrate a pluralistic populace that derived from hometowns across the Yucatán peninsula New data from Mayapán the pinnacle of Postclassic Maya society contribute to a paradigm change regarding the evolution and organization of Maya society in general and make Kukulcan's Realm a must read for students and scholars of the ancient Maya and Mesoamerica

Migrations in Late Mesoamerica Christopher S. Beekman, 2019-10-14 Bringing the often neglected topic of migration to the forefront of ancient Mesoamerican studies this volume uses an illuminating multidisciplinary approach to address the role of population movements in Mexico and Central America from AD 500 to 1500 the tumultuous centuries before European contact Clarifying what has to date been chiefly speculation researchers from the fields of archaeology biological anthropology linguistics ethnohistory and art history delve deeply into the causes and impacts of prehistoric migration in the region They draw on evidence including records of the Nahuatl language murals painted at the Cacaxtla polity ceramics in the style known as Coyotlatelco skeletal samples from multiple sites and conquest era accounts of the origins of the Chich'én Itz' Maya from both Native and Spanish scribes The diverse datasets in this volume help reveal the choices and priorities of migrants during times of political economic and social changes that unmoored populations from ancestral lands Migrations in Late Mesoamerica shows how migration patterns are vitally important to study due to their connection to environmental and political disruption in both ancient societies and today's world A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase
