A World History of Nineteenth-Century Archaeology Margarita Diaz-Andreu, 2007-11-22 Margarita Diaz Andreu offers an innovative history of archaeology during the nineteenth century encompassing all its fields from the origins of humanity to the medieval period and all areas of the world The development of archaeology is placed within the framework of contemporary political events with a particular focus upon the ideologies of nationalism and imperialism Diaz Andreu examines a wide range of issues including the creation of institutions the conversion of the study of antiquities into a profession public memory changes in archaeological thought and practice and the effect on archaeology of racism religion the belief in progress hegemony and resistance *A World History of Nineteenth-Century Archaeology* Margarita Díaz-Andreu García, 2007-11-22 Margarita Diaz Andreu offers an innovative history of archaeology during the nineteenth century encompassing all its fields from the origins of humanity to the medieval period and all areas of the world The development of archaeology is placed within the framework of contemporary political events with a particular focus upon the ideologies of nationalism and imperialism Diaz Andreu examines a wide range of issues including the creation of institutions the conversion of the study of antiquities into a profession public memory changes in archaeological thought and practice and the effect on archaeology of racism religion the belief in progress hegemony and resistance Chilling Out Shane Blackman, 2004-07-16 Erudite and wide ranging perceptive and provocative lively and up to date Shane Blackman has produced a book with something to offer to just about anyone interested in drugs in contemporary society Blackman uncovers hidden histories points out the contradictions running through media popular culture and official policy and highlights the challenges facing us *Chilling Out* is a book that will be a boon to students and a valuable resource for both teachers and researchers Nigel South Professor Department of Sociology and Research Professor Department of Health and Human Sciences University of Essex How are drug war politics drug prevention popular culture and drug consumption interconnected What are the major contradictions assumptions and silences within the moral arguments of drug policy makers What are the implications for the viability of drugs policy This book critically examines the assumptions underlying drug prohibition and explores the contradictions of drug prevention policies For the first time in this field it combines a wide ranging exploration of the global political and historical context with a detailed focus on youth culture on the basis that young people are the primary target of drug prevention policies *Chilling Out* provides a critical map of drugs bringing together work on drugs as a source of political state repression and regulation of morality through medical discourse work on drugs as cultural commodities in film popular music advertising and tourism work on drug normalisation subcultural deviance and the politics of drug education This clear and enlightening text for sociology health and media and cultural studies courses argues for an holistic and a critical understanding of drugs in society which can be the basis for a more coherent approach to drug control Practitioners and policy makers will find it a thought provoking and informative source

History and Precedent in Environmental Design Anatol Rapoport, 2013-06-29 This book is about a new and different way of approaching and studying the history of the built environment and the use of historical precedents in design. However, although what I am proposing is new for what is currently called architectural history, both my approach and even my conclusions are not that new in other fields as I discovered when I attempted to find supporting evidence. In fact, of all the disciplines dealing with various aspects of the study of the past, architectural history seems to have changed least in the ways I am advocating. There is currently a revival of interest in the history of architecture and urban form; a similar interest applies to vernacular design and culture-environment relations. After years of neglect, the study of history and the use of historical precedent are again becoming important. However, that interest has not led to new approaches to the subject nor have its bases been examined. This I try to do. In so doing, I discuss a more rigorous and I would argue a more valid way of looking at historical data and hence of using such data in a theory of the built environment and as precedent in environmental design. Underlying this is my view of Environment-Behavior Studies (EBS) as an emerging theory rather than as data to help design based on current theory. Although this will be the subject of another book, a summary statement of this position may be useful.

History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below. Nevertheless, the Preface would be grossly incomplete without touching on some of these issues, books, and scholars. Too many of this book's chapters (e.g., Moras, Marx, S.D.B. Weiner's) examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German, French, Italian, and Spanish. Also in his 1968 *Short History of Psychiatry* discussed below, Ackerknecht (pp. xi-xii) references important nineteenth and earlier twentieth-century psychiatric histories in English, French, and German. Such citations will, of course, not be repeated here. Finally, thanks to several publishers' re-issues of dozens of classical psychiatric texts, one can consult their bibliographies as well. See Prolegomenon for references to these splendid series. In a rough and ready sense, medical history began in classical Greece; for example, *On Ancient Medicine*, while traditionally included in the Hippocratic corpus, this text seems more likely to have been written by a non- or even anti-Hippocratic doctor. Moreover, the Hippocratic and other schools were hardly as secular as we now suppose. *On Epilepsy*, for example, does not so much declare the prevalent denotation of it as the sacred disease, erroneous as it does, that it is no more nor less sacred than any other disease.

Archaeology and History of the Chinese in Southern New Zealand During the Nineteenth Century Neville A. Ritchie, 2023-11-01 This revised edition of Dr Neville A. Ritchie's 1986 PhD dissertation explores the history and archaeology of the 19th-century Chinese mining communities in the Clutha Valley, New Zealand. Lavishly illustrated with black and white line drawings of Chinese domestic and industrial sites and of the artefacts excavated from them, this study

offers unprecedented insight into the life and material culture of these male only sojourner communities Widely considered the most comprehensive archaeological study of overseas Chinese miners experience anywhere in the world this volume contains the total summation and analysis of artefacts found in 23 Chinese sites excavated over nine years which included two camps with 40 individual huts and other features a Chinese store and 20 rural sites including miner s huts and rock shelters Considered by the Australian Society for Historical Archaeology to be a seminal work in the field of historical archaeology this 2023 edition introduces Dr Ritchie s groundbreaking work to the next generation of archaeologists **The Routledge History of Poverty, c.1450-1800** David Hitchcock, Julia McClure, 2020-12-31 The Routledge History of Poverty c 1450 1800 is a pioneering exploration of both the lives of the very poorest during the early modern period and of the vast edifices of compassion and coercion erected around them by individuals institutions and states The essays chart critical new directions in poverty scholarship and connect poverty to the environment debt and downward social mobility material culture empires informal economies disability veterancy and more The volume contributes to the understanding of societal transformations across the early modern period and places poverty and the poor at the centre of these transformations It also argues for a wider definition of poverty in history which accounts for much more than economic and social circumstance and provides both analytically critical overviews and detailed case studies By exploring poverty and the poor across early modern Europe this study is essential reading for students and researchers of early modern society economic history state formation and empire cultural representation and mobility The British National Bibliography Arthur James Wells, 2000

The History of Lexicography R. R. K. Hartmann, 1986-01-01 Most dictionaries have forerunners and all have imitators an understanding of the historical foundations of dictionary making is therefore one of the preconditions of further progress in academic lexicography The papers in this volume which were presented at the 1986 Exeter Seminar survey most of the lexicographical traditions in the world some tracing them right back to their beginnings The programme was divided into eight sessions with the following concentrations of topics 1 three classical traditions 2 the early history of European lexicography 3 the beginnings of English lexicography 4 further aspects of English lexicography 5 the background of diverse national developments 6 specific features of national developments 7 pioneers of three genres 8 recent trends in the English dictionary

King Arthur Rodney Castleden, 2003-03-13 King Arthur is often written off as a medieval fantasy the dream of those yearning for an age of strong just rulers and a contented kingdom Those who accept his existence at all generally discard the stories that surround him This exciting new investigation argues not only that Arthur did exist as a Dark Age chieftain but that many of the romantic tales of Merlin Camelot and Excalibur are rooted in truth In his quest for the real King Arthur Rodney Castleden uses up to date archaeological and documentary evidence to recreate the history and society of Dark Age Britain and its kings He revives the possibility that Tintagel was an Arthurian legend and proposes a radical new theory that Arthur escaped alive from his final battle A location is even suggested for perhaps the greatest mystery the whereabouts of Arthur s grave King Arthur The Truth Behind the Legend offers a more complete picture of Arthur s Britain and his place in it than ever before The book s bold approach and compelling arguments will be welcomed by all readers with an interest in Arthuriana

Critique as Critical History Bregman Dalgliesh, 2017-08-22 This book presents the first sustained articulation of a Foucauldian uvre It situates Foucault s critique within the tradition of Kant s call for a philosophical archaeology of reason in parallel it demonstrates the priority in Foucault s thought of Nietzsche over Heidegger and the

framing of reason against an ontology of power Bregman Dalgliesh hereby claims that at the heart of the Foucauldian uvre is the philosophical method of critical history Its task is to make the will to know that drives thought conscious of itself as a problem especially the regimes of truth that define our governmentalities By revealing the contingency of their constituent parts of knowledge power and ethics Dalgliesh demonstrates that critical history offers an alternative mode of critique to the hitherto singular reading of the intellectual heritage of enlightenment while it fosters an agonistic concept of freedom in respect of our putatively necessary limits
