time for that cried the tortured man the engine is burning already and I don't have an extinguisher Lying on the truck's passenger door with his head in the side window Charlie almost pleaded How can I help He could see the man's bleeding leg trapped in the wreckage Could it be freed in time Pull me loose the man shouted in pain and panic offering Charlie his hand Charlie pulled **The SAGE Handbook of Identities** Margaret Wetherell, Chandra Talpade Mohanty, 2010-04-14

**Identity Troubles** Anthony Elliott, 2015-10-29 In our turbulent world of global flows and digital transformations, pervasive identity crises and self-reinvention have become increasingly central to everyday life. In this fascinating book, Anthony Elliott shows how global transformations, the new electronic economy, digital worlds, biotechnologies, and artificial intelligence generate a metamorphosis across the force field of identities today. *Identity Troubles* documents various contemporary mutations of identity from robotics to biomedicine, from cosmetic surgery to digital lives, and considers their broader social, cultural, and political consequences. Elliott offers a synthesis of the key conceptual innovations in identity studies in the context of recent social theory. He critically examines accounts of individualization, reflexivity, liquidization, and new maladies of the soul, situating these in wider social and historical contexts and drawing out critical themes. He follows with a series of chapters looking at how what is truly new in contemporary life is having profound consequences for identities, both private and public. This book will be essential reading for undergraduate students in sociology, cultural studies, political science, and human geography. It offers the first comprehensive overview of identity studies in the interdisciplinary field of social theory.
