Russia in Britain, 1880-1940 Rebecca Beasley, Philip Ross Bullock, 2013-09-26 Russia in Britain offers the first comprehensive account of the breadth and depth of the British fascination with Russian and Soviet culture tracing its transformative effect on British intellectual life from the 1880s the decade which saw the first sustained interest in Russian literature to 1940 the eve of the Soviet Union's entry into the Second World War By focusing on the role played by institutions disciplines and groups libraries periodicals government agencies concert halls publishing houses theatres and film societies this collection marks an important departure from standard literary critical narratives which have tended to highlight the role of a small number of individuals notably Sergei Diaghilev Constance Garnett Theodore Komisarjevsky Katherine Mansfield George Bernard Shaw and Virginia Woolf Drawing on recent research and newly available archives Russia in Britain shifts attention from individual figures to the networks within which they operated and uncovers the variety of forces that enabled and structured the British engagement with Russian culture The resulting narrative maps an intricate pattern of interdisciplinary relations and provides the foundational research for a new understanding of Anglo Russian Soviet interaction In this it makes a major contribution to the current debates about transnationalism cosmopolitanism and global modernisms that are reshaping our knowledge of nineteenth and early twentieth century British culture Studies in Short Fiction ,1994

Class Fictions Pamela Fox, 1994-11-21 Many recent discussions of working class culture in literary and cultural studies have tended to present an oversimplified view of resistance In this groundbreaking work Pamela Fox offers a far more complex theory of working class identity particularly as reflected in British novels of the late nineteenth and early twentieth centuries Through the concept of class shame she produces a model of working class subjectivity that understands resistance in a more accurate and useful way as a complicated kind of refusal directed at both dominated and dominant culture With a focus on certain classics in the working class literary canon such as *The Ragged Trousered Philanthropists* and *Love on the Dole* as well as lesser known texts by working class women Fox uncovers the anxieties that underlie representations of class and consciousness Shame repeatedly emerges as a powerful counterforce in these works continually unsettling the surface narrative of protest to reveal an ambivalent relation toward the working class identities the novels apparently champion *Class Fictions* offers an equally rigorous analysis of cultural studies itself which has historically sought to defend and value the radical difference of working class culture Fox also brings to her analysis a strong feminist perspective that devotes considerable attention to the often overlooked role of gender in working class fiction She demonstrates that working class novels not only expose master narratives of middle class culture that must be resisted but that they also reveal to us a need to create counter narratives or formulas of working class life In doing so this book provides a more subtle sense of the role of resistance in working class culture While of interest to scholars of Victorian and working

class fiction Pamela Fox's argument has far reaching implications for the way literary and cultural studies will be defined and practiced

Slow Print Elizabeth Carolyn Miller, 2013-01-09 This book explores the literary culture of Britain's radical press from 1880 to 1910 a time that saw a flourishing of radical political activity as well as the emergence of a mass print industry While Enlightenment radicals and their heirs had seen free print as an agent of revolutionary transformation socialist anarchist and other radicals of this later period suspected that a mass public could not exist outside the capitalist system In response they purposely reduced the scale of print by appealing to a small counter cultural audience Slow print like slow food today actively resisted industrial production and the commercialization of new domains of life Drawing on under studied periodicals and archives this book uncovers a largely forgotten literary political context It looks at the extensive debate within the radical press over how to situate radical values within an evolving media ecology debates that engaged some of the most famous writers of the era William Morris and George Bernard Shaw a host of lesser known figures theosophical socialist and birth control reformer Annie Besant gay rights pioneer Edward Carpenter and proto modernist editor Alfred Orage and countless anonymous others
