It aims to unravel the knotted connections between education and society by focusing on the voluntary pursuit of knowledge by those who were both older and more likely to be gainfully employed than the school age population *Modern Scientific Knowledge of Nature, Man, and Society* Frederick Albert Cleveland, 1929 **The Seamen's Journal**, 1924 **Modern Psychology, Normal and Abnormal** Daniel Bell Leary, 1928 Routledge Library Editions: Adult Education Various Authors, 2021-07-14 Against a background of profound worldwide social and economic change the concept of lifelong learning has come increasingly into the public eye. As educators and policy makers rethink the meaning of education, the purpose of schooling and the place of learning in our everyday lives, educational institutions are opening up to those traditionally deprived of the opportunity. The books in this set, originally published between 1979 and 1992, including global case studies, reflect upon major issues confronting adult educators worldwide and discuss the role of adult education in social and community action, examine the relationship between class and adult education, look at the concept of culture and the transmission of cultural values in relations to adult education, evaluate the role of adult education in reducing unemployment *The New Republic* Herbert David Croly, 1925
