The Idea Of The Novel In Europe:

The Idea of the Novel in Europe, 1600-1800 Ioan Williams, 1979-05-24 **The Idea of the Novel in Europe, 1600-1800** Ioan Williams, 2014-01-14 The Idea of Europe in Literature Susanne Fendler, Ruth Wittlinger, 1999-09-11 The relevance of culture has recently enjoyed increasing recognition for the study of European integration and a European identity Appeals to a common European culture as well as appeals to different national cultures have been used respectively as a means to pursue political ends Paying tribute to literature's role as an important constituent part of a culture this collection of essays explores literary representations of Europe and its nation states and should be of particular value to anyone who is interested in cultural political or literary studies in the European context **The Idea of Europe** Shane Weller, 2021-06-03 This book offers a new critical history of the idea of Europe from classical antiquity to the present day

The Idea of Europe, 2021-03-22 Recent developments within and beyond Europe have variously challenged the very idea of Europe calling it into question and demanding reconsideration of its underlying assumptions The essays collected here reassess the contemporary position of a perceived European identity in the world overshadowed as it is by the long antecedents and current crisis of triumphalist Eurocentrism While Eurocentrism itself is still a potent mind set it is now increasingly challenged by intra European crises and by the emergence of autonomously non European perceptions of Europe The perspectives assembled here come from the fields of political cultural and literary history contemporary history social and political science and philosophy Contributors are Damir Arsenijevic Luiza Bialasiewicz Vladimir Biti Lucia Boldrini Gerard Delanty Csar Dom nguez Nikol Dziub Rodolphe Gasch Aage Hansen Lve Shigemi Inaga Joep Leerssen and Vivian Liska **The Novel and Europe** Andrew Hammond, 2016-10-05 This book examines the ways in which fiction has addressed the continent since the Second World War Drawing on novelists from Europe and elsewhere the volume analyzes the literary response to seven dominant concerns ideas of Europe conflict borders empire unification migration and marginalization offering a ground breaking study of how modern and contemporary writers have participated in the European debate The sixteen essays view the chosen writers not as representatives of national literatures but as participants in transcontinental discussion that has occurred across borders cultures and languages In doing so the contributors raise questions about the forms of power operating across and radiating from Europe challenging both the institutionalized divisions of the Cold War and the triumphalist narrative of continental unity currently being written in Brussels *The Idea of Europe in British Travel Narratives, 1789-1914* Katarina Gephardt, 2016-03-03 The nineteenth century was the heyday of travel with Britons continually reassessing their own culture in relation to not only the colonized but also other Europeans especially the ones that they encountered on the southern and eastern peripheries of the continent Offering illustrative case studies Katarina Gephardt shows how specific rhetorical strategies used in contemporary travel writing produced popular fictional representations of continental Europe in the works of Ann Radcliffe Lord Byron Charles Dickens and Bram Stoker

She examines a wide range of autobiographical and fictional travel narratives to demonstrate that the imaginative geographies underpinning British ideas of Europe emerged from the spaces between fact and fiction Adding texture to her study are her analyses of the visual dimensions of cross cultural representation and of the role of evolving technologies in defining a shared set of rhetorical strategies Gephardt argues that British writers envisioned their country simultaneously as distinct from the Continent and as a part of Europe anticipating the contradictory British discourse around European integration that involves both fear that the European super state will violate British sovereignty and a desire to play a more central role in the European Union

Ritual and the Idea of Europe in Interwar Writing Patrick R. Query,2016-04-08

While most critical studies of interwar literary politics have focused on nationalism Patrick Query makes a case that the idea of Europe intervenes in instances when the individual and the nation negotiate identity He examines the ways interwar writers use three European ritual forms verse drama bullfighting and Roman Catholic rite to articulate ideas of European cultural identity Within the growing discourse of globalization Query argues Europe presents a special though often overlooked case because it adds a mediating term between local and global His book is divided into three sections the first treats the verse dramas of T S Eliot W B Yeats and W H Auden the second discusses the uses of the Spanish bullfight in works by D H Lawrence Stephen Spender Jack Lindsay George Barker Cecil Day Lewis and others and the third explores the cross cultural impact of Catholic ritual in Graham Greene Evelyn Waugh and David Jones While all three ritual forms were frequently associated with the most conservative tendencies of the age Query shows that each had a remarkable political flexibility in the hands of interwar writers concerned with the idea of Europe

D.H.Lawrence and the Idea of the Novel

John Worthen,1979-06-17 Annotation This Seductive and Engaging Biography offers a bold reappraisal of a man who was deeply uncomfortable in his own skin Lawrence s fascination with the body and his determination to articulate its every experience brought about his notorious reputation and ultimately his literary redemption What emerges in John Worthen s portrait is an intimate and absolutely compelling study of an individual in angry revolt against his class culture and country a man passionately struggling to live in accordance with his beliefs

The Shelley-Byron Circle and the Idea of Europe P.

Stock,2010-04-12 This book investigates how Lord Byron Percy Shelley and their circle understood the idea of Europe What geographical cultural and ideological concepts did they associate with the term What does this tell us about politics and identity in early nineteenth century Britain In addressing these questions Paul Stock challenges prevailing nationalist interpretations of Romanticism but without falling prey to imprecise alternative notions of cosmopolitanism or world citizenship Instead his book accounts for both the transnational and the local in Romantic writing reassessing the period in terms of more complex multi layered identity politics
