The Identities Of Persons:

The Identities of Persons Amélie Rorty, 1976-11-15 In this volume thirteen philosophers contribute new essays analyzing the criteria for personal identity and their import on ethics and the theory of action it presents contemporary treatments of the issues discussed in *Personal Identity* edited by John Perry University of California Press 1975 **Identities of Persons** Amélie Oksenberg Rorty, 1976 In this volume thirteen philosophers contribute new essays analyzing the criteria for personal identity and their import on ethics and the theory of action it presents contemporary treatments of the issues discussed in *Personal Identity* edited by John Perry University of California Press 1975 *The Identities of Persons* Amélie Oksenberg Rorty, 1976 *Persons, Identity, and Political Theory* Catherine Galko Campbell, 2013-11-19 This book examines the conception of the person at work in John Rawls's writings from *Theory of Justice* to *Justice as Fairness: A Restatement* The book aims to show that objections to Rawls's political conception of the person fail and that a Rawlsian conception of political identity is defensible The book shows that the debate between liberals and communitarians is relevant to the current debate regarding perfectionism and neutrality in politics and clarifies the debate between Rawls and communitarians in a way that will promote fruitful discussion on the issue of political identity It does this by providing a clearer account of a conception of personal identity according to which persons are socially constituted including the intuitions and assumptions underlying the communitarians conception of persons as socially constituted It examines the communitarian objections to liberal political theory and to the liberal conception of persons the unencumbered self The book differentiates between two types of objection to the liberal conception of persons the metaphysical and normative It explains Rawls's political conception of persons and the metaphysical and normative commitments Rawls incurs and does not incur in virtue of that conception It shows that both kind of objection to Rawls's political conception of the person fail Finally modifying Rawls's political conception of the person a Rawlsian conception of political identity is explained and defended *The Identities of Persons* George Graham, 1975

Time, Identity and the Self: Essays on Metaphysics Brian Garrett, 2022-02-21 This volume contains twenty four essays by the British Australian analytic metaphysician Brian Garrett These essays are followed by four short dialogues that emphasize and summarize some of the main points of the essays and discuss new perspectives that have emerged since their original publication The volume covers topics on the metaphysics of time the nature of identity and the nature and importance of persons and human beings The chapters constitute the fruits of almost four decades of philosophical research from Brian's two award winning essays published in *Analysis* in 1983 and *The Philosophical Quarterly* in 1992 to his latest ideas about Fatalism and the Grandfather Paradox This book will be of interest to students and professional philosophers in the field of analytic philosophy *Encyclopedia of Philosophy and the Social Sciences* Byron Kaldis, 2013-03-07 This encyclopedia magnificently edited by Byron Kaldis will become a valuable source both of reference and inspiration for all those who are interested in the interrelation between philosophy and the many facets of the social sciences A must read for every student of

the humanities Wulf Gaertner University of Osnabrueck Germany Like all good works of reference this Encyclopedia of Philosophy and the Social Sciences is not to be treated passively it provides clear and sometimes controversial material for constructive confrontation It is a rich resource for critical engagement The Encyclopedia conceived and edited by Byron Kaldis is a work of impressive scope and I am delighted to have it on my bookshelf David Bloor Edinburgh University This splendid and possibly unique work steers a skilful course between narrower conceptions of philosophy and the social sciences It will be an invaluable resource for students and researchers in either or both fields and to anyone working on the interrelations between them William Outhwaite Newcastle University The Encyclopedia of Philosophy and the Social Sciences is the first of its kind in bringing the subjects of philosophy and the social sciences together It is not only about the philosophy of the social sciences but going beyond that it is also about the relationship between philosophy and the social sciences The subject of the Encyclopedia is purposefully multi and inter disciplinary Knowledge boundaries are both delineated and crossed over The goal is to convey a clear sense of how philosophy looks at the social sciences and to mark out a detailed picture of how the two are interrelated interwoven at certain times but also differentiated and contrasted at others The Entries cover topics of central significance but also those that are both controversial and on the cutting edge underlining the unique mark of this Encyclopedia the interrelationship between philosophy and the social sciences especially as it is found in fresh ideas and unprecedented hybrid disciplinary areas The Encyclopedia serves a further dual purpose it contributes to the renewal of the philosophy of the social sciences and helps to promote novel modes of thinking about some of its classic problems
