Christ is coming, etc. pt. 1 ,1868 **Material Mystery** Karmen MacKendrick,2021-08-17 Material Mystery considers three apparently anthropocentric myths that are central to Abrahamic religions those of the primal human the incarnated and possibly divine redeemer and the resurrected body At first glance these stories reinforce a human centered theology and point to a very anthropomorphic God Taking them seriously seems to ignore the material turn in the humanities entirely with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts or that the point of the rest of the world is to further human consumption But it is possible Karmen MacKendrick shows to read these figures through a particular tradition that emerges from the Hebrew Bible the tradition of Wisdom as a creative force Wisdom texts are common across the ancient Near East As the idea of creative Wisdom develops from antiquity into the middle ages it gathers philosophical influences from a range of philosophical traditions This exuberantly promiscuous impurity intellectual artistic and theological generates new interpretive possibilities In these interpretations each human like figure opens up onto the world s matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom s combination of care and delight
