The Industry Of Food:

Food Industry R&D Helmut Traitler, Birgit Coleman, Adam Burbidge, 2016-10-25 Research and development represents a vast spread of topics and can be an arena for controversy In academia such controversy may stem from conflicting interpretations of data and subsequent conclusions the question of who was first to discover a particular finding and whether or not the said finding is of any value to the scientific community R D in corporate environments is mostly defined and driven by costs and clearly identified consumer focused targets There is however common ground between these two approaches as both strive to maximize knowledge though for different reasons and in different ways The equipment and scientific rigor may be similar or identical however their usage approach and interpretation are different This book discusses the history and background of today's food industry R D as seen by consumers academia and the industry itself with several chapters dedicated to new and disruptive approaches A must read for all professionals in the packaged goods industry as well as students who aspire to contribute to this new industry forcefully driven by R D

Products and Process Innovation in the Food Industry Klaus Günter Grunert, W. Bruce Traill, 2012-12-06 Innovation in new product development is a key factor in determining the success of a food company yet the area is fraught with risk with failure rates in excess of 90% being common Using a series of 12 European cases studies this book examines the innovation process from agriculture through to retailer Each example highlights a different aspect of innovation and the lessons that can be learned from experience It considers the important role that marketing as well as technical aspects play in the process

National Nutrition Policy: the Food Industry--its Resources and Activities in Food Production and Nutrition, 1974
