Organizing the 20th-Century

World Karen Gram-Skjoldager, Haakon Andreas Ikonou, Torsten Kahlert, 2020-11-12 International Organizations play a pivotal role on the modern global stage and have done this book argues since the beginning of the 20th century This volume offers the first historical exploration into the formative years of international public administrations covering the birth of the League of Nations and the emergence of the second generation that still shape international politics today such as the UN NATO and OECD Centring on Europe where the multilateralization of international relations played out more intensely in the mid 20th century than in other parts of the world it demonstrates a broad range of historiographical and methodological approaches to institutions in international history The book argues that after several turns cultural linguistic material transnational international history is now better equipped to restate its core questions of policy and power with a view to their institutional dimensions Making use of new approaches in the field this book develops an understanding of the specific powers and roles of IO administrations by delving into their institutional make up *Handbook Global History of Work* Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession **International Counterterrorism Bureaucracies in the United Nations and the European Union** Hendrik Hegemann, 2015-03-26 Since the attacks of September 11 2001 a complex web of international structures and rules for the fight against transnational terrorism has emerged However previous research disregarded the organizational basis of counterterrorism cooperation Using the example of bureaucratic actors in the United Nations and the European Union this study examines how and to what degree international counterterrorism bureaucracies exercise autonomy and perform distinct functions The book reveals the special ambivalence of counterterrorism cooperation for international bureaucracies which need to reconcile calls for effective counterterrorism with the need to maintain an impression of technical impartiality in a particularly contested policy field They respond to this challenge with different strategies of politicization and depoliticization The Administration of International Organizations Michael D.V. Davies, 2017-07-05 Drawing on his extensive practical experience as an international civil servant in a number of organizations Davies writes in a lively and readable manner about all aspects of administrative policy and its related implications Divided into two parts the first Top down will enable policy makers in government academia and elsewhere who

have an interest in the proper governance and management of international institutions to gain fresh insight into the topic
The second part Bottom up provides a substantial body of knowledge of administrations including case studies of best and worse practice The book includes analysis of The UN system International Financial Institutions Coordinated Organizations Regional European Institutions The Consultative Group for International Agricultural Research This is a work that fills a well defined gap in organizational knowledge in a rigorous but accessible way It is essential reading for both practitioners and academics involved with international organizations **Ibss Poli Sci 29 1980** "International Committee For Social Sciences Documentation",2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 A Better United Nations for the New Millennium Kamil Idris,Michael Bartolo,2021-10-18
