The International Serials Industry:

Serials Canada Wayne Jones, 1995 *Serials Canada Aspects of Serials in Canadian Libraries* offers a new perspective on serials from a Canadian viewpoint. It provides a sampling of the variety and a sense of the importance of work which is less well known and less covered than that of the U S which Canadian libraries scholars and publishers are doing on serials. It presents valuable information not documented elsewhere giving new insights and ideas to serials librarians worldwide. Authors in *Serials Canada* take a variety of approaches: historical and descriptive, argumentative, critical and bibliographical to their subject matter. Chapters offer close up in depth snapshots of some important topics in Canadian serials. They cover topics including electronic serials, serials pricing including new developments in the areas of cancellation, funding, cooperation, access and electronic initiatives. Canadian newspapers, the historical development of Canadian ethnic serials, publishing the Canadian Institute for Historical Microreproductions (CIHM), the editing, production, distribution, circulation and marketing of the scholarly journal *The Canadian Historical Review*, the purpose, focus, objectives and future directions of the Canadian Serials Industry Systems Advisory Committee (CSISAC), the history, mandate and organization of the Canada Institute for Scientific and Technical Information's (CISTI) Document Delivery service. Some of the peculiarities of the Canadian serials situation are discussed in the various chapters, especially in speculating about the future of librarianship. *Serials Canada* includes a unique bibliography of works on electronic journals either published in Canada or with some other Canadian connection. It also sheds some light on the evolution of the Canadian Periodicals Price Index study so that librarians will find the Index to be more useful in future years. It emphasizes the common elements and some of the problems inherent in newspaper preservation and management by giving an overview of the Decentralized Plan for Canadian newspapers. The discussion of CISTI assists readers in understanding the various services offered by Document Delivery and discusses how technology has been used to ensure that CISTI's Document Delivery services remain relevant to its clients and cost effective in a competitive environment. The information in *Serials Canada* is of particular interest to librarians of all levels and library professionals and scholars. It will help the Canadian librarian stay up to date with developments at home and help those from other countries gain a more international and comparative perspective. *United States Congressional Serial Set Catalog*, 1989. *A Guide to Serial Publications Founded Prior to 1918 and Now Or Recently Current in Boston, Cambridge, and Vicinity* Thomas Johnston Homer, 1922. *Monthly Catalog of United States Government Publications* United States Superintendent of Documents, 1993. **Management of Serials in Libraries** Thomas Nisonger, 1998-10-15. Focusing on the management of serials in libraries and the role of serials in scholarly communications, this book combines descriptive and prescriptive approaches to illuminate major serials management issues. Unlike other works on the subject, this text emphasizes collection management issues, serials evaluation, selection criteria, cancellation, weeding, document delivery, budgeting, decision models, use studies, journal ranking and the application of citation analysis including use of the Journal

Citation Reports and Bradfordian distribution The author also discusses the implications of the Internet and World Wide Web for serials management Other topics include types of serials serials history serials automation electronic journals technical services processing and copyright issues Appendixes list and annotate relevant World Wide Web sites pertinent bibliographies and sources of statistical data about serials Significant research is often cited There are extensive footnotes and bibl
