Duke University John M. The grassroots civil rights movement created a national crisis of conscience that led many individuals and institutions vital to the universities survival to insist on desegregation. The schools felt enormous pressure to end discrimination as northern foundations withheld funding accrediting bodies and professional academic associations denied membership divinity students and professors chose to study and teach elsewhere and alumni withheld contributions The Brown v Board of Education decision in 1954 gave the desegregation debate a sense of urgency and also inflamed tensions which continued to mount into the early 1960s These tensions and the boards resistance to change created an atmosphere of crisis that badly eroded their cherished role as southern leaders When faced with the choice between institutional viability and segregation Kean explains they gracelessly relented refusing to the end to admit they had been pressured by outside forces Shedding new light on a rare unexamined facet of the civil rights movement Desegregating Private Higher Education in the South fills a gap in the history of the

Turner, 2010 In Sitting In and Speaking Out Jeffrey A Turner examines student movements in the South to grasp the nature of activism in the region during the turbulent 1960s Turner argues that the story of student activism is too often focused on national groups like Students for a Democratic Society and events at schools like Columbia University and the University of California at Berkeley Examining the activism of black and white students he shows that the South responded to national developments but that the response had its own trajectory one that was rooted in race Turner looks at such events as the initial desegregation of campuses integration s long aftermath as students learned to share institutions the Black Power movement and the antiwar movement Escalating protest against the Vietnam War tested southern distinctiveness says Turner The South's tendency toward hawkishness impeded antiwar activism but once that activism arrived it was as in other parts of the country oriented toward events at national and global scales Nevertheless southern student activism retained some of its core characteristics Even in the late 1960s southern protesters demands tended toward reform often eschewing calls to revolution increasingly heard elsewhere Based on primary research at more than twenty public and private institutions in the deep and upper South including historically black schools Sitting In and Speaking Out is a wide ranging and sensitive portrait of southern students Jack Coombs John P.
