Simon,2016-04-30 In Roger Simon's new collection based on ten years of research the respected scholar reminds us that historically traumatic events simultaneously summon forgetting and remembrance in unique ways The Touch of the Past explores the ways in which remembrance consciousness and history affect how students learn and educators teach Simon examines how testimonies of historic events influence learning and how communities deal with collective memory A serious contribution to the research in education and memory and trauma studies from a top philosopher in the field Woman Critiqued Rebecca L. Copeland,2006-05-31 Woman Critiqued will make us wonder why we thought we could grasp modern Japanese literature without concerted attention to what men and women had to say about women's literary production This remarkable collection is full of surprises even where predictable arguments are being made Careful translations of writings by the familiar and the obscure together with thought provoking introductions and supporting apparatus make this an indispensable text for the study of modern Japanese culture and society Norma M Field University of Chicago Over the past thirty years translations of Japanese women's writing and biographies of women writers have enriched and expanded our understanding of modern Japanese literature But how have women writers been received and read in Japan To appreciate the subterfuges strategies and choices that the modern Japanese woman writer has faced readers must consider the criticisms leveled against her the expectations and admonitions that have been whispered in her ear and pay attention to the way she herself has responded What did it mean to be a woman writer in twentieth century Japan How was she defined and how did this definition limit her artistic sphere Woman Critiqued builds on existing scholarship by offering English language readers access to some of the more salient critiques that have been directed at women writers on the one hand and reactions to these by women writers on the other The grouping of the essays into chapters organized by theme clarifies how the discussion in Japan has been framed by certain assumptions and how women have repeatedly tried to intervene by playing with undercutting or attempting to exceed these assumptions Chapter introductions contextualize the translated essays historically and draw out aspects that warrant particular scrutiny or explication Although the translators do not cover all aspects or genres identified with women's literary endeavors in the twentieth century they provide a significant

understanding of the evaluative systems under which Japanese women writers have worked Woman Critiqued will be eagerly read by specialists in modern Japanese literature and those interested in comparative literature women s studies gender studies and history Featured writers Akitsu Ei Akiyama Shun Hara Shiro Hasegawa Izumi Kobayashi Hideo Kora Rumiko Matsuura Rieko Mishima Yukio Mitsuhashi Takajo Mizuta Noriko Miwata Masako Oguri Fuyo Okuno Takeo Ooka Makoto Saito Minako Shibusawa Tatsuhiko Setouchi Harumi Takahara Eiri Takahashi Junko Takahashi Takako Tanaka Miyoko Tomioka Taeko Tsujii Takashi Tanizaki Jun ichiro Tsushima Yoko Yosano Akiko Translators Tomoko Aoyama Jan Bardsley Janine Beichman Rebecca L Copeland Mika Endo Joan E Ericson Barbara Hartley Maryellen Toman Mori Yoshiko Nagaoka Kathryn Pierce Laurel Rasplica Rodd Amanda Seaman Eiji Sekine Judy Wakabayashi Analytical Essays on Music by Women Composers: Concert Music, 1960-2000 Laurel Parsons,Brenda Ravenscroft,2016-03-03 Analytical Essays on Music by Women Composers Concert Music 1960 2000 is the first to appear in an exciting a four volume series devoted to the work of women composers across Western art music history Featuring rich analyses and detailed study by the most reputed music theorists in the field along with brief biographical sketches for each composer this collection brings to the fore the essential repertoire of a range of important composers many of whom otherwise stand outside the standard canon **Bulletin of Bibliography ,1993 Documentation Sur la Recherche Féministe ,1999 Dilemmas in the Study of Information** Mary Neill,1992-01-27 This thought provoking book identifies the limits of the field of information science and thus raises very real problems of the discipline in the context of people using misusing and abusing information S D Neill provides many examples of the uses of information to illustrate how difficult it is to work with In particular he highlights problems of information scientists using information to study information It is the author s contention that information use problems are in certain instances insoluble dilemmas for they are grounded in human nature and can be solved only by altering that nature Neill analyzes certain events to show that while sufficient information was available it wasn t used either because of greed personality or judgement Information is power if and only if you have enough knowledge to understand it the will to use it and the ability to communicate it The dilemmas are found in the control of information for retrieval the use of data originally collected for other purposes and research methods in library and information science *Serials in the British Library ,2008*
