Guide to the Land Law of Victoria Sir Charles Gavan Duffy, Victoria, 1862 *Laws of the Land* Tristan G. Brown, 2025-12-09 A groundbreaking history of fengshui s roles in public life and law during China s last imperial dynasty Today the term fengshui which literally means wind and water is recognized around the world Yet few know exactly what it means let alone its fascinating history In *Laws of the Land* Tristan Brown tells the story of the important roles especially legal ones played by fengshui in Chinese society during China s last imperial dynasty the Manchu Qing 1644 1912 Employing archives from Mainland China and Taiwan that have only recently become available this is the first book to document

fengshui's invocations in Chinese law during the Qing dynasty Facing a growing population dwindling natural resources and an overburdened rural government judicial administrators across China grappled with disputes and petitions about fengshui in their efforts to sustain forestry farming mining and city planning Laws of the Land offers a radically new interpretation of these legal arrangements they worked An intelligent considered and sustained engagement with fengshui on the ground helped the imperial state keep the peace and maintain its legitimacy especially during the increasingly turbulent decades of the nineteenth century As the century came to an end contentious debates over industrialization swept across the bureaucracy with fengshui invoked by officials and scholars opposed to the establishment of railways telegraphs and foreign owned mines Demonstrating that the only way to understand those debates and their profound stakes is to grasp fengshui's longstanding roles in Chinese public life Laws of the Land rethinks key issues in the history of Chinese law politics science religion and economics

The Land is the Source of the Law C.F. Black, 2010-10-04 The Land is the Source of Law brings an inter jurisdictional dimension to the field of indigenous jurisprudence comparing Indigenous legal regimes in New Zealand the USA and Australia it offers a dialogical encounter with an Indigenous jurisprudence in which individuals are characterised by their rights and responsibilities into the Land Though a relatively new field indigenous jurisprudence is the product of the oldest continuous legal system in the world Utilising a range of texts films novels poetry as well as law stories CF Black blends legality and narrative in order to redefine jurisprudentia in indigenous terms This re definition gives shape to the jurisprudential framework of the book a shape that is not just abstract but physical and metaphysical a shape that is circular and concentric at the same time The outer circle is the cosmology so that the human never forgets that they are inside a universe a universe that has a law This law is found in the second circle which whilst resembling the ancient Greek law of physis is a law based on relationship This is a relationship that orders the placing of the individual in the innermost circle and which structures their rights and responsibilities into the land The jurisprudential texts which inform the theoretical framework of this book bring to our attention the urgent message that the Djang primordial energy is out of balance and that the rebalancing of that Djang is up to the individual through their lawful behaviour a behaviour which patterns them back into land Thus The Land is the Source of the Law concludes not only with a diagnosis of the cause of climate change but a prescription which offers an alternative legal approach to global health
