The Encyclopedia provides a detailed and comprehensive account of the subject known as public choice However the title would not convey sufficiently the breadth of the Encyclopedia's contents which can be summarized better as the fruitful interchange of economics political science and moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible This fruitful interchange between the fields outlined above existed during the late eighteenth century during the brief period of the Scottish Enlightenment when such great scholars as David Hume Adam Ferguson and Adam Smith contributed to all these fields and more However as intellectual specialization gradually replaced broad based scholarship from the nineteenth century onwards it became increasingly rare to find a scholar making major contributions to more than one Once Alfred Marshall defined economics in neoclassical terms as a narrow positive discipline the link between economics political science and moral philosophy was all but severed and economists redefined their role into that of the humble dentist providing technical economic information as inputs to improve the performance of impartial benevolent and omniscient governments in their attempts to promote the public interest This indeed was the dominant view within an economics profession that had become besotted by the economics of John Maynard Keynes and Paul Samuelson immediately following the end of the Second World War      **The Legal & Regulatory Environment of Business**, 2005 In 1963 the first edition Legal and Regulatory Environment of Business led by Bob Corley started a new course emphasizing the legal environment in which business is conducted By focusing on the public nature of how government regulates business activities rather than simply how businesses privately make transactions a movement away from traditional Business Law began Through its previous 12 editions Legal and Regulatory Environment of Business by Reed Shedd Morehead and Corley has been the leader in setting the standard for materials covered in an introduction to the legal and regulatory environment of business      *Environmental Solutions* Franklin J.
