Studies Yves Mühlematter,Helmut Zander,2021-06-08 The historiographers of religious studies have written the history of
this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first
through the establishment of comparative philological and sociological methods and secondly through the demand for
intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of
purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories
took time and only happened later One example concerning the early entanglement is Tibetology where many researchers

and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society. Similarly, the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin. In this perspective, it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas.

The Legend of Perseus Edwin Hartland, 2012-11-26
Edwin Sidney Hartland's *The Legend of Perseus* was published in three volumes between 1894 and 1896. Like its better known contemporary James Frazer's *The Golden Bough* 1890, Hartland's *Perseus* attained a degree of fame and widespread citation as a convenient compendium of myths and legends. Hartland explored the Greek myth of Perseus exhaustively, tracing its parallels in ancient, medieval, and modern folklore to understand the continuity of story, custom, and belief across time and space. Hartland demonstrated the widespread nature of the supernatural birth of the hero, his encounter with a witch, and his rescue of a fair maid. However, the book proved controversial because Hartland drew parallels between the supernatural birth of Perseus and that of Jesus. This edition brings together all three volumes of Hartland's work in a new one-volume abridgment that presents all of Hartland's main text and a selection of his footnotes.
