The LEGEND OF THE NORTH WIND. ,1997 *The Legend of the North Wind* Elizabeth Vago,197? **Northwind ,**
Henricus Martellus's World Map at Yale (c. 1491) Chet Van Duzer,2018-08-03 This book presents groundbreaking new research on a fifteenth century world map by Henricus Martellus c 1491 now at Yale The importance of the map had long been suspected but it was essentially unstudiable because the texts on it had faded to illegibility Multispectral imaging of the map performed with NEH support in 2014 rendered its texts legible for the first time leading to renewed study of the map by the author This volume provides transcriptions translations and commentary on the Latin texts on the map particularly their sources as well as the place names in several regions This leads to a demonstration of a very close relationship between the Martellus map and Martin Waldseemüller's famous map of 1507 One of the most exciting discoveries on the map is in the hinterlands of southern Africa The information there comes from African sources the map is thus a unique and supremely important document regarding African cartography in the fifteenth century This book is essential reading for digital humanitarians and historians of cartography *Beyond the North Wind* Christopher McIntosh,2019 The North is simultaneously a location a direction and a mystical concept Although this concept has ancient roots in mythology folklore and fairy tales it continues to resonate today within modern culture McIntosh leads readers chapter by chapter through the magical and spiritual history of the North as well as its modern manifestations as documented through physical records such as runestones and megaliths but also through mythology and lore This mythic conception of a unique powerful and mysterious Northern civilization was known to the Greeks as Hyberborea the Land Beyond the North Wind which they considered to be the true origin place of their god Apollo bringer of civilization Through the Greeks this concept of the mythic North would spread throughout Western civilization In addition McIntosh discusses Russian Hyperboreanism which he describes as among the most influential of the new religions and quasi religious movements that have sprung up in Russia since the fall of Communism and which is currently almost unknown in the West
