**Early Medieval Europe** Valerie Irene Jane Flint, 2020-03-31 There are forces better recognized as belonging to human society than repressed or left to waste away or growl about upon its fringes So writes Valerie Flint in this powerful work on magic in early medieval Europe Flint shows how many of the more discerning leaders of the early medieval Church decided to promote non Christian practices originally condemned as magical rather than repressing them or leaving them to waste away or growl These wise leaders actively and enthusiastically incorporated specific kinds of magic into the dominant culture not only to appease the contemporary non Christian opposition but also to enhance Christianity itself *Handbook of Greek Sculpture* Olga Palagia, 2019-07-22 The Handbook of Greek Sculpture aims to provide a detailed examination of current research and directions in the field Bringing together an international cast of contributors from Greece Italy France Great Britain Germany and the United States the volume incorporates new areas of research such as the sculptures of Messene and Macedonia sculpture in Roman Greece and the contribution of Greek sculptors in Rome as well as important aspects of Greek sculpture like techniques and patronage The written sources literary and epigraphical are explored in dedicated chapters as are function and iconography and the reception of Greek sculpture in modern Europe Inspired by recent exhibitions on Lysippos and Praxiteles the book also revisits the style and the personal contributions of the great masters **The Moon**

**and the Western Imagination** Scott L. Montgomery, 2022-03-29 The Moon is at once a face with a thousand expressions and the archetypal planet Throughout history it has been gazed upon by people of every culture in every walk of life From early perceptions of the Moon as an abode of divine forces humanity has in turn accepted the mathematized Moon of the Greeks the naturalistic lunar portrait of Jan van Eyck and the telescopic view of Galileo Scott Montgomery has produced a richly detailed analysis of how the Moon has been visualized in Western culture through the ages revealing the faces it has presented to philosophers writers artists and scientists for nearly three millennia To do this he has drawn on a wide array of sources that illustrate mankind's changing concept of the nature and significance of heavenly bodies from classical antiquity to the dawn of modern science Montgomery especially focuses on the seventeenth century when the Moon was first mapped and its features named From literary explorations such as Francis Godwin's *Man in the Moone* and Cyrano de Bergerac's *L*

autre monde to Michael Van Langren's textual lunar map and Giambattista Riccioli's *Almagestum novum* he shows how Renaissance man was moved by the lunar orb how he battled to claim its surface and how he in turn elevated the Moon to a new level in human awareness The effect on human imagination has been cumulative our idea of the Moon and therefore the planets is multilayered and complex having been enriched by associations played out in increasingly complicated harmonies over time We have shifted the way we think about the lunar face from a perfect body to an earthlike one with corresponding changes in verbal and visual expression Ultimately Montgomery suggests our concept of the Moon has never wandered too far from the world we know best the Earth itself And when we finally establish lunar bases and take up some form of residence on the Moon's surface we will not be conquering a New World fresh and mostly unknown but a much older one ripe with history

*Hebrew Psalms and the Utrecht Psalter* Pamela Berger, 2021-05-14 In a major departure from previous scholarship this volume argues that the illustrations in the famous and widely influential Utrecht Psalter manuscript were inspired by a late antique Hebrew version of Psalms rather than a Latin Christian version of the text Produced during the early ninth century in a workshop near Reims France the Utrecht Psalter is illustrated with pen and ink drawings in a lively style reminiscent of Hellenistic art The motifs are largely literal renditions of words and phrases found in the book of Psalms However more than three dozen motifs cannot be explained by either the Latin text that accompanies the imagery or the commentaries of the church fathers Through a close reading of the Hebrew Psalms Pamela Berger demonstrates that these motifs can be explained only by the Hebrew text the Jewish commentary or Jewish art Drawing comparisons between the Hellenistic style of the Psalter images and the style of late antique Galilean mosaics and using evidence from recent archaeological discoveries Berger argues that the model for those Psalter illustrations dependent on the Hebrew text was produced in the Galilee Pioneering and highly persuasive this book resolves outstanding issues surrounding the origins of one of the most extensively studied illuminated manuscripts It will be mandatory reading for many historians of medieval art and literature and for those interested in the Hebrew text of the book of Psalms

**Medieval Bestiaries**, 2025-08-28 What could the phoenix elephant and spider teach medieval people and what can they teach us now about human animal relationships *Medieval Bestiaries New Approaches* offers innovative insights on questions previously unasked

about a most popular type of illuminated manuscript whose animal pictures and stories continue to entertain and inspire. Bringing together an impressive range of multi disciplinary expertise the authors provide fresh perspectives on previously unpublished or under explored bestiary texts, images, methods of production, cross literary influences and moralized messaging. Most significantly they move bestiaries out of their specialized scholarly corner into the wider world of animal thinking across Christian, Jewish and Islamic cultures and stake a claim for animals as a central meeting ground for medieval and modern sensibilities. Contributors are Emma Campbell, Marc M Epstein, Erica Fudge, Larisa Grollemond, Rebecca Hill, Elizabeth Morrison, Julie Orlemanski, Alexandra Paddock and Debra Higgs Strickland. Meetings with Remarkable Manuscripts Christopher de Hamel, 2019-11-12. An extraordinary and beautifully illustrated exploration of the medieval world through twelve manuscripts from one of the world's leading experts. Winner of The Wolfson History Prize and The Duff Cooper Prize. A San Francisco Chronicle Holiday Book Gift Guide Pick. Meetings with Remarkable Manuscripts is a captivating examination of twelve illuminated manuscripts from the medieval period. Noted authority Christopher de Hamel invites the reader into intimate conversations with these texts to explore what they tell us about nearly a thousand years of medieval history and about the modern world too. In so doing, de Hamel introduces us to kings, queens, saints, scribes, artists, librarians, thieves, dealers and collectors. He traces the elaborate journeys that these exceptionally precious artifacts have made through time and shows us how they have been copied, how they have been embroiled in politics, how they have been regarded as objects of supreme beauty and as symbols of national identity and who has owned them or lusted after them and how we can tell. From the earliest book in medieval England to the incomparable Book of Kells to the oldest manuscript of the Canterbury Tales, these encounters tell a narrative of intellectual culture and art over the course of a millennium. Two of the manuscripts visited are now in libraries of North America: the Morgan Library in New York and the Getty Museum in Los Angeles. Part travel book, part detective story, part conversation with the reader, Meetings with Remarkable Manuscripts allows us to experience some of the greatest works of art in our culture to give us a different perspective on history and on how we come by knowledge. *Touching Parchment: How Medieval Users Rubbed, Handled, and Kissed Their Manuscripts* Kathryn M. Rudy, 2023-04-18. The Medieval book, both religious and secular, was regarded as a most precious item. The traces of its use through touching and handling during different rituals such as oath taking is the subject of Kathryn Rudy's research. In Touching Parchment, Rudy presents numerous and fascinating case studies that relate to the evidence of use and damage through touching and or kissing. She also puts each study within a category of different ways of handling books, mainly liturgical, legal or choral practice, and in turn connects each practice to the horizontal or vertical behavioural patterns of users within a public or private environment. With her keen eye for observation, in being able to identify various characteristics of inadvertent and targeted use, the author adds a new dimension to the Medieval book. She gives the reader the opportunity to reflect on the social, anthropological and historical value of the use of the book by sharpening our senses to

the way users handled books in different situations Rudy has amassed an incredible amount of material for this research and the way in which she presents each manuscript conveys an approach that scholars on Medieval history and book materiality should keep in mind when carrying out their own research What perhaps is most striking in her articulate text is how she expresses that the touching of books was not without emotion and the accumulated effects of these emotions are worthy of preservation study and further reflection
