Robin Griffith-Jones, Mark Hill

The Liber Augustalis:

The Liber Augustalis Or Constitutions of Melfi Promulgated by the Emperor Frederick II for the Kingdom of Sicily in 1231 Sicily (Italy), Frederick II (Holy Roman Emperor), 1971-07 The Liber Augustalis was born of no grand design but of the demands of government This body of law marked a moment of triumph in the long and frustrating struggle by which Frederick attempted to establish his royal authority in the Kingdom of Sicily Frederick had smashed rebellions by the Muslim population and by the nobility while he systematically negotiated with the clergy over disputed domains It was as a victorious king and emperor that he ordered the compilation of the Liber Augustalis a cornerstone of royal authority in part a summing up of the previous legal efforts of the monarchy in part a significant move beyond the limitations of previous legislation The Liber Augusta is blended many disparate influences into a common body of law The existing legal traditions Lombard Byzantine and Norman the Canon law of the Church and the learning of the Bolognese scholars especially Master Petrus Della Vigna provided sources on which Frederick could draw but the laws represent the viewpoint of the monarchy rather than those of the powerful groups within the kingdom Church nobility and towns whose interests were often counter to those of the king Ultimately events proved that the greatest danger to Frederick's rule lay not in the kingdom itself but in the determination of the papacy and the Roman curia to prevent Sicily from becoming the seat of empire in Italy In 1231 however when Frederick was formulating his imperial policy the first priority lay in establishing the strongest posture for monarchy

The Liber augustalis or Constitutions of Melfi, promulgated by the Emperor Frederick II. for the Kingdom of Sicily in 1231 Friedrich (Röm.-dt. Reich, Kaiser, II.), 1971 The Liber Augustalis Or Constitutions of Melfi ,1971 *The Liber Augustalis: Or Constitutions of Melfi Promulgated by the Emperor Frederick the Second for the Kingdom of Sicily in 1231* Frederick II (Holy Roman Emperor), 1998 *The Liber Augustalis Or Constitutions of Melfi* ,1971 Heresy and Authority in Medieval Europe Edward Peters, 2011-09-22 Throughout the Middle Ages and early modern Europe theological uniformity was synonymous with social cohesion in societies that regarded themselves as bound together at their most fundamental levels by a religion To maintain a belief in opposition to the orthodoxy was to set oneself in opposition not merely to church and state but to a whole culture in all of its manifestations From the eleventh century to the fifteenth however dissenting movements appeared with greater frequency attracted more followers acquired philosophical as well as theological dimensions and occupied more and more the time and the minds of religious and civil authorities In the perception of dissent and in the steps taken to deal with it lies the history of medieval heresy and the force it exerted on religious social and political communities long after the Middle Ages In this volume Edward Peters makes available the most compact and wide ranging collection of source materials in translation on medieval orthodoxy and heterodoxy in social context

The Cambridge History of Medieval Political Thought C.350-c.1450 J. H. Burns, 1988 This volume examines the history of a complex and varied body of ideas over a period of more than a thousand years *The Two Cities* Malcolm

Barber,2004-08-02 First published to wide critical acclaim in 1992 *The Two Cities* has become an essential text for students of medieval history For the second edition the author has thoroughly revised each chapter bringing the material up to date and taking the historiography of the past decade into account *The Two Cities* covers a colourful period from the schism between the eastern and western churches to the death of Dante It encompasses key topics such as the Crusades the expansionist force of the Normans major developments in the way kings emperors and Popes exercised their powers a great flourishing of art and architecture the foundation of the very first universities Running through it all is the defining characteristic of the high Middle Ages the delicate relationship between the spiritual and secular worlds the two cities of the title This survey provides all the facts and background information that students need and is defined into straightforward thematic chapters It makes extensive use of primary sources and makes new trends in research accessible to students Its fresh approach gives students the most rounded lively and integrated view of the high Middle Ages available *The Common Legal Past of Europe, 1000-1800* Manlio Bellomo,1995 A readable introduction to medieval legal history Whilst the scope is broad detailed discussion and a discursive bibliography makes it useful for the general historian **The Liber Augustalis** Frederick II (Holy Roman Emperor),1998 *The Society of Norman Italy* Graham Loud,Alex Metcalfe,2002-07-01 This book is a wide ranging collection of essays about different aspects of the society of southern Italy and Sicily from the eleventh through to the thirteenth centuries Of the eleven contributors seven are from Continental Europe most of whom have never before published in English The volume devotes particular attention to the evolution of the social structure to regional differences the Church and to the position of Greek and Arabic Christians and Muslims within the Norman Kingdom of Sicily The authors all acknowledged experts in this field draw upon an unrivalled knowledge of the contemporary sources both published and unpublished This volume will therefore be a most important resource for both scholars and students of this fascinating area of medieval history on which relatively little has hitherto been written in English *The Imagery and Politics of Sexual Violence in Early Renaissance Italy* Péter Bokody,2023-01-26 This book is the first comprehensive study of images of rape in Italian painting at the dawn of the Renaissance Drawing on a wide range of primary sources P ter Bokody examines depictions of sexual violence in religion law medicine literature politics and history writing produced in kingdoms Sicily and Naples and city republics Florence Siena Lucca Bologna and Padua Whilst misogynistic endorsement characterized many of these visual discourses some urban communities condemned rape in their propaganda against tyranny Such representations of rape often link gender and aggression to war abduction sodomy prostitution pregnancy and suicide Bokody also traces how the new naturalism in painting introduced by Giotto increased verisimilitude but also fostered imagery that coupled eroticism and violation Exploring images and texts that have long been overlooked Bokody s study provides new insights at the intersection of gender policy and visual culture with evident relevance to our contemporary condition **Disputes and Settlements** John Bossy,Lyndal Roper,2003-01-30 This

collection of essays by British American and French scholars uses the records of the law in Western Europe from the fall of Rome to the nineteenth century in an attempt to outline a social history of the West considered as a history of human relations. The primary themes are dispute arbitration and conjugal relations; the primary influences considered are feud, Christianity and the state. The contributions are discussed overall by an anthropologist lawyer Simon Roberts who writes an anthropological introduction and by the editor in a short historical postscript. The aim has been to strike a new note in social history by attending more closely to actual people and their actual relations by drawing on the resources of anthropology, legal history, the history of religious feelings and institutions and of states to illuminate their behaviour and by combining the efforts of scholars representing a diversity of intellectual traditions and a long perspective of human experience. *The Latin Church in Norman Italy* G. A. Loud, 2007-12-20. First published in 2007, this was the first significant study of the incorporation of the Church in southern Italy into the mainstream of Latin Christianity during the eleventh and twelfth centuries. Professor G. A. Loud examines the relationship between Norman rulers, south Italian churchmen and the external influence of the new papal monarchy. He discusses the impact of the creation of the new kingdom of Sicily in 1130, the tensions that arose from the papal schism of that era and the religious policy and patronage of the new monarchs. He also explores the internal structures of the Church, both secular and monastic, and the extent and process of Latinisation within the Graecophone areas of the mainland and on the island of Sicily, where at the time of the Norman conquest the majority of the population was Muslim. This is a major contribution to the political, religious and cultural history of the Central Middle Ages. Magna Carta, Religion and the Rule of Law Robin Griffith-Jones, Mark Hill, 2015-04-23. Jurists, historians and theologians from five faiths and three continents examine the importance of Magna Carta's religious foundations. *The Papacy, Frederick II and Communal Devotion in Medieval Italy* James M. Powell, edited by Edward Peters, 2024-10-28. Of the twenty-five essays in this volume, most were published between 1961 and 2013, but four are printed here for the first time. They represent the work of a great and original scholar in Mediterranean history whose unflagging interest in Frederick II and his world consistently led him out into broader fields which he always viewed in original ways. In an age often called that of papal monarchy and secular-minded rulers, Powell found popes with complex agendas and extensive pastoral concerns, a rather more Christian Frederick II, the human personnel and mechanics of the Fifth Crusade, the sermons of the devout urban layman Albertanus of Brescia and Muslims under Christian rule. His studies here assert a continuity between the pontificates of Innocent III and Honorius III as well as the pragmatic necessity that only secular rulers could launch and direct crusading expeditions. His interest in the northern Italian communes relates their devotional culture to the ideals of virtuous government and communal identity. The devotional culture of the communes was to be the subject of his next book, now unfinished; several parts of it could be rescued and are now included here. **Law and Revolution** Harold J. Berman, 1985-01-01. The roots of modern Western legal institutions and concepts go back nine centuries to the papal

revolution when the Western church established its political and legal unity and its independence from emperors kings and feudal lords Out of this upheaval came the Western idea of integrated legal systems developed over generations and centuries

The Italian Legal System Michael A. Livingston, Pier Giuseppe Monateri, Francesco Parisi, 2015-10-21 For fifty years the first edition of The Italian Legal System has been the gold standard among English language works on the Italian legal system The book's original authors Mauro Cappelletti John Henry Merryman and Joseph M Perillo provided not only an overview of Italian law but a definition of the field together with an important contribution to the general literature on comparative law The book explains the unique Italian style in doctrine law and interpretation and includes an extremely well written introduction to Italian legal history government the legal profession and civil procedure and evidence In this fully updated and revised second edition authors Michael A Livingston Pier Giuseppe Monateri and Francesco Parisi describe the substantial changes in Italian law and society in the intervening five decades including the creation and impact of the European Union as well as important advances in comparative law methodology The second edition poses timely relevant questions of whether and to what extent the unique Italian style of law has survived the pressures of European unification American influence and the globalization of law and society in the intervening period The Italian Legal System Second Edition is an important and stimulating resource for those with specific interest in Italy and those with a more general interest in comparative law and the globalization process

Inscribing Knowledge in the Medieval Book Rosalind Brown-Grant, Patrizia Carmassi, Gisela Drossbach, Anne D. Hedeman, Victoria Turner, Iolanda Ventura, 2020-01-20 This collection of essays examines how the paratextual apparatus of medieval manuscripts both inscribes and expresses power relations between the producers and consumers of knowledge in this important period of intellectual history It seeks to define which paratextual features annotations commentaries corrections glosses images prologues rubrics and titles are common to manuscripts from different branches of medieval knowledge and how they function in any particular discipline It reveals how these visual expressions of power that organize and compile thought on the written page are consciously applied negotiated or resisted by authors scribes artists patrons and readers This collection which brings together scholars from the history of the book law science medicine literature art philosophy and music interrogates the role played by paratexts in establishing authority constructing bodies of knowledge promoting education shaping reader response and preserving or subverting tradition in medieval manuscript culture

Suburbia and Rural Landscapes in Medieval Sicily Angelo Castrorao Barba, Giuseppe Mandalà, 2023-07-27 Presents the results of the main ongoing archaeological and historical research focusing on medieval suburbia and rural sites in Sicily The volume is divided into thematic areas Urbanscapes suburbia hinterlands Inland and mountainous landscapes Changes in rural settlement patterns and Defence and control of the territory
