devised But above all the work is admirable for the valuable lessons of morality it inculcates and which are so interwoven with the incidents of the tale that they can scarce escape the attention of the most careless reader and will often make an impression where more formal and didactic precepts would be delivered in vain We should be at a loss to point out in any work in our language more charming pictures of connubial felicity and domestic happiness Still notwithstanding the general purity with which the book is composed and the utter absence of indecent language too characteristic of the period in which it was written it contains one or two incidents which have properly prevented its being employed for the amusement and instruction of the young About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
