#### The Light Of Egypt Or Science Of The Soul:

The Light of Egypt: The Science of the Soul and the Stars Belle M. Wagner, Thomas H. Burgoyne, 2020-09-28 It is the duty of Occult students to familiarize themselves with the subjects herein discussed They should know the ideas of our ancestors regarding them and be familiar with their thought in order to appreciate the sublime wisdom and knowledge of Nature as taught by them otherwise we are sure to do them as well as ourselves great injustice The history of Occultism bears out the fact that there is very little that is new to the present time. The arrangement and classification of thought differs during each cycle of time on the different spirals and like the fruitage on lower rounds of Nature's progressive wheel of destiny variety and quality are diverse so likewise do we find the mental manifestations. This age however is blessed with a great variety and abundance of thought in clear cut language that should enlighten the races of the Earth with Mother Nature s modus operandi in every department of human thought We hope these chapters will aid to this end and doubtless many students will find in them the key to unlock the mysteries veiled in symbol and hieroglyphic by ancient writers The author's object has been to make plain and easy of understanding these subjects Much however has been left for private study and research for many large volumes might be filled if a detailed description of each subject were entered upon which task is left for those who feel so inclined A rich reward is in store for those spiritual investigators who will follow out the paths and lines herein mapped out on Spiritual Astrology Alchemy and other subjects Meditation and aspiration will open up hidden treasures that will prove a boon to Occult students for Astrology and Alchemy are the two grand sciences that explain the why and reasons for what we see and experience on every plane of life In this age there should be no concealing of these Divine truths We cannot hide anything in the air and for this reason the Sun in Aquarius will unearth and reveal to man all that the present cycle has to give during the Sun's passage through this airy sign The watery sign Pisces through which the Sun manifested during the past 2 160 years gave up to man their secret powers and hidden attributes in steam as a motive power which man has completely mastered He will likewise master the airy forces during the present sub cycle of the Sun in Aguarius Already we see him using liquid air and compressed air as a motive power which will gradually take the place of steam as the Sun gets farther into the sign or constellation of Aquarius Men will become immensely wiser than they have been and it is to be hoped they will leave the written record of their achievements in science and art to show to future races their status of mind on every subject for the edification and enlightenment of coming races Our ancestors were denied this great privilege Consequently their wisdom is only symbolized to us in a way that it is difficult to read and interpret correctly yet we who have the key to their symbols can read accurately the truth they wish to convey which stands out clearly to all capable of understanding and interpreting symbolism and correspondence correctly History and Nature repeat themselves in every cycle of time therefore these forces and potentialities are natural to the sign through which the Sun manifests We can go backward or forward through the Sun's Zodiac and read correctly the history of the hoary past as well as the present and

future by bearing in mind the sign and cycle in manifestation at any given period When the proper time arrives a work will be given to the world to prove to mankind the law of cycles **The Light of Egypt** Thomas Burgoyne,2021-02-20 The Light of Egypt The Science of the Soul and Stars By Thomas Burgovne The light of Egypt; or, The science of the soul and the stars, by '+5' Thomas H. Burgoyne,1889 The Light of Egypt Thomas Burgoyne, 2021-10-18 The Light of Egypt The Science of the Soul and the Stars is a late 19th century work of occultism by Thomas H Burgoyne It explores both the soul and nature of man as well as his relation to the stars and planets through Burgoyne's study of astrology Volume I of The Light of Egypt included here is divided into two parts The first The Science of the Soul explores the realms of spirit matter and the originals of physical life It also explains the Brotherhood of Light's views of reincarnation karma and mediumship Unlike the common idea of reincarnation as a literal rebirth of a soul into different bodies here on Earth Burgoyne argues that this would be a stalling of man's progress Instead we are reborn into a higher and more perfect form of life In part two Burgoyne goes into more detail regarding the science of astronomy This science he explains consists of two parts One is astronomy which deals with the suns moons planets and stars and strictly confines its researches to a knowledge of their size distance and motion The other he calls correspondences which explore the spiritual and physical influences of the same bodies first upon each other then upon the earth and lastly upon the organism of man Like other occultist writers and thinkers Burgoyne views man as a microcosm of the greater universe In the zodiac we find each sign to be associated with a section of the human body Each also has its own unique characteristics which he describes from the symbolic Kabbalistic intellectual and physical views Not only date but birth time and birth location determine man's physical and mental traits as well as their fortunes Burgoyne would not have been impressed with modern horoscopes that lump all people with the same zodiac sign together The Light of Egypt is a work to be studied over time by those searching for wisdom and truth It was described by Elbert Benjamine the founder of the Church of Light successor to the Hermetic Brotherhood of Luxor as the greatest spiritual work of the 19th century The Light of Egypt; Or, The Science of the Soul and the Stars - Volume 2 Thomas H. Burgoyne and Belle M. Wagner, 2023-02-28 The Light of Egypt Or The Science of the Soul and the Stars Volume 2 has been acknowledged as a major work throughout human history and we have taken precautions to assure its preservation by republishing this book in a modern manner for both present and future generations This book has been completely retyped revised and reformatted The text is readable and clear because these books are not created from scanned The Light of Egypt: Volume One, the Science of the Soul and the Stars Thomas H. Burgoyne, 1999-10 copies The Light of Egypt Or Science of the Soul and the Stars Thomas H Burgoyne, 2021-04-26 First published in 1889 as The

Light of Egypt the lessons in this book occasioned the establishment of the Hermetic Brotherhood of Luxor as an esoteric occult order and outer expression of the Brotherhood of Light The Hermetic Brotherhood was structured with three leaders a seer a scribe secretary and an astrologer Burgoyne became the scribe As Burgoyne understood it the Brotherhood of Light

was an occult order formed to oppose the dominant religious powers of the day in ancient Egypt As the members died they continued the brotherhood from their new plane of being **The Light of Egypt** ,2001-07-01 The Light of Egypt Thomas H. Burgoyne, 2013-11 Thomas H Burgoyne was born in Scotland on April 14th 1855 As a child he claimed visions of a group of advanced entities known as the Brotherhood of Light whose purpose was to guide human destiny After a meeting with M Theon said to be a representative of the Brotherhood Burgoyne moved to California and in company with another contactee Norman Astley established a new occult order The Hermetic Brotherhood of Luxor In The Light of Egypt Burgoyne reveals the Brotherhood's teachings as a series of lessons in two volumes Volume 1 is a wide ranging exposition on spiritual wisdom while Volume 2 explains its attainment with special reference to astrology Replete with esoteric wisdom some unique to the teachings of the Brotherhood both volumes of The Light of Egypt are designed for the serious occult student and will reward slow patient study The Light of Egypt; Or, the Science of the Soul and the Stars [Two Volumes in One] Thomas Burgoyne, 2021-10 The Light of Egypt The Science of the Soul and Stars by Thomas H Burgoyne is a treatise on astrology occultism and the true nature of the universe Comprising two volumes this work explores the connection between the macrocosm of God and the microcosm of man Author Thomas H Burgoyne was an occultist and medium who believed he was in touch with the unembodied Brotherhood of Light This group Burgoyne and other followers believed guided the fate of humanity from a different plane of existence This book began as a set of lessons to share the Brotherhood's teachings with the public Burgoyne wrote Volume I of this work in the late 1880s and published it in 1889 Shortly after its publication he passed away at the age of 39 But he was not done with The Light of Egypt yet After his passing fellow occultists Henry and Belle Wagner continued his work Belle Wagner succeeded Burgoyne as the scribe of the Hermetic Brotherhood of Light Burgoyne also chose Mrs Wagner to be the vessel through which he would reveal Volume II of his great work This is how the second volume of The Light of Egypt was written after Burgoyne's passing and published in 1900 Volume I explores the very foundations of existence from the spirit to matter to creation It then moves into the transitions of the soul through the concepts of reincarnation karma and mediumship Burgoyne explained that rather than reincarnating into another life here on Earth true reincarnation brought the soul to a different more elevated plane of existence It was from this plane that he dictated the second volume of his work to Mrs Wagner Key to Burgoyne's understanding of humanity and the universe is the study of astrology By understanding the celestial bodies the sun moon and eight planets omitting Earth we could understand ourselves and the world around us in a new truer way Detailed descriptions of each of these bodies explain the way they interact both with each other and with the human brain Volume I closes with a chapter regarding the practical applications of astrology and how the date time and location of one s birth will determine mental and physical traits Volume II builds on the foundation laid in Volume I and explains additional concepts of astrology as well as ritual magic and the occult This volume explores astro theology using the science of the stars to understand the creation and redemption stories of world

religions including Christianity It also discusses astro mythology drawing parallels between the symbolism of the gods and goddesses and the stars and constellations A common theme through Volume II is understanding the true names and words used to symbolize the concepts described The etymology of words like alchemy talisman and ritual are explored to help the reader understand their true original meaning rather than the meaning we have ascribed to them in the centuries since their creation Volume II also contains a translation of the Tablets of Aeth said to have been transcribed from the Astral Records These translations are in three parts one to explore the symbolism of each of the twelve mansions or zodiac houses one to discuss the symbolism of the ten planetary rulers the sun moon and eight planets and one for the Great Kabbalistic Powers These 33 tablets represent the very core of occult philosophy The work closes with the Penetralia or The Secret of the Soul to bring everything together in a final call to enter the Sacred Sanctuary and learn the imperishable truth of our being The Light of Egypt is a work to be carefully studied by students of astrology and the occult to give them a deeper understanding of the universe and their place within it *The Light of Egypt: Volume Two, the Science of the Soul and the Stars*, 2000
