The Limits Of The Criminal Sanction:

The Limits of the Criminal Sanction Herbert Packer, 1968-06-01 The argument of this book begins with the proposition that there are certain things we must understand about the criminal sanction before we can begin to talk sensibly about its limits First we need to ask some questions about the rationale of the criminal sanction What are we trying to do by defining conduct as criminal and punishing people who commit crimes To what extent are we justified in thinking that we can or ought to do what we are trying to do Is it possible to construct an acceptable rationale for the criminal sanction enabling us to deal with the argument that it is itself an unethical use of social power And if it is possible what implications does that rationale have for the kind of conceptual creature that the criminal law is Questions of this order make up Part I of the book which is essentially an extended essay on the nature and justification of the criminal sanction We also need to understand so the argument continues the characteristic processes through which the criminal sanction operates What do the rules of the game tell us about what the state may and may not do to apprehend charge convict and dispose of persons suspected of committing crimes Here too there is great controversy between two groups who have quite different views or models of what the criminal process is all about There are people who see the criminal process as essentially devoted to values of efficiency in the suppression of crime There are others who see those values as subordinate to the protection of the individual in his confrontation with the state A severe struggle over these conflicting values has been going on in the courts of this country for the last decade or more How that struggle is to be resolved is a second major consideration that we need to take into account before tackling the question of the limits of the criminal sanction These problems of process are examined in Part II Part III deals directly with the central problem of defining criteria for limiting the reach of the criminal sanction Given the constraints of rationale and process examined in Parts I and II it argues that we have over relied on the criminal sanction and that we had better start thinking in a systematic way about how to adjust our commitments to our capacities both moral and operational The limits of the criminal sanction Herbert L. Packer, **Criminal Procedure** James R. Acker, David C.

The Impact of Publicity on Corporate Offenders Brent Fisse, John Braithwaite, 1984-06-30 Uncertainty surrounds the use of publicity as a means of controlling corporate crime On the one hand some agree with Justice Brandeis s dictum that light is the best of disinfectants the most efficient policeman On the other hand many believe that corporations internal affairs are effectively shrouded with a thick fog that prevents the light of public scrutiny from reaching them The Impact of Publicity on Corporate Offenders is the first study to go beyond the rhetoric through an examination of corporate experience Fisse and Braithwaite have carried out a qualitative inquiry concerning 17 large corporations involved in publicity crises Based mainly on interviews the inquiry includes company employees and former employees union officials officers of government regulatory agencies competitors independent accountants government prosecutors public interest activists judicial officers stockbrokers and other experts

Organised Crime and the Law Liz Campbell, 2013-02-01 Organised Crime and the Law presents an overview of the laws and policies adopted to address the phenomenon of organised crime in the United Kingdom and Ireland assessing the changes to these justice systems in terms of the prevention investigation prosecution and punishment of such criminality While the notion of organised crime is a contested one States legal responses treat it and its constituent offences as

unproblematic in a definitional sense This book advances a systematic doctrinal critique of these domestic criminal laws laws of evidence and civil processes Organised Crime and the Law focuses on the tension between due process and crime control the demands of public protection and risk aversion and other adaptations In particular it identifies parallels and points of divergence between the different jurisdictions in the UK and Ireland bearing in mind the shared history of subversive threats and counter terrorism policies It also examines the extent to which policy transfer is evident in the UK and Ireland in terms of emulating the United States in reacting to organised crime **Smith, Hogan, and Ormerod's Criminal Law**

David|Laird Ormerod (Karl|Gibson, Matthew),2024 **The Supreme Court Review, 2015** Dennis J. Hutchinson,David A. Strauss,Geoffrey R. Stone,2016-06-22 For more than fifty years The Supreme Court Review has won acclaim for providing a sustained and authoritative survey of the implications of the Court s most significant decisions The Supreme Court Review is an in depth annual critique of the Supreme Court and its work keeping up on the forefront of the origins reforms and interpretations of American law It is written by and for legal academics judges political scientists journalists historians economists policy planners and sociologists *The Presumption of Innocence* Andrew Stumer,2010-06-14 The presumption of innocence is universally recognized as a fundamental human right and a core principle in the administration of criminal justice Nonetheless statutes creating criminal offences regularly depart from the presumption of innocence by requiring defendants to prove specific matters in order to avoid conviction Legislatures and courts seek to justify this departure by asserting that the reversal of the burden of proof is necessary to meet the community interest in prosecuting serious crime and maintaining workable criminal sanctions This book investigates the supposed justifications for limitation of the presumption of innocence It does so through a comprehensive analysis of the history rationale and scope of the presumption of innocence It is argued that the values underlying the presumption of innocence are of such fundamental importance to individual liberty that they cannot be sacrificed on the altar of community interest In particular it is argued that a test of proportionality which seeks to weigh individual rights against the community interest is inappropriate in the context of the presumption of innocence and that courts ought instead to focus on whether an impugned measure threatens the values which the presumption is designed to protect The book undertakes a complete and systematic review of the United Kingdom and Strasbourg authority on the presumption of innocence It also draws upon extensive references to comparative material both judicial and academic from the United States Canada and South Africa *The Oxford Handbook of Sentencing and Corrections* Joan Petersilia,Kevin R. Reitz,2015 This handbook surveys American sentencing and corrections from global and historical views from theoretical and policy perspectives and with attention to a number of problem specific issues

Committee on the Judiciary,1971 Children's Rights and the Minimum Age of Criminal Responsibility Don Cipriani,2016-05-23 Children of almost any age can break the

law but at what age should children first face the possibility of criminal responsibility for their alleged crimes This work is the first global analysis of national minimum ages of criminal responsibility MACRs the international legal obligations that surround them and the principal considerations for establishing and implementing respective age limits Taking an international children s rights approach with a rich theoretical framework and the vitality of the UN Convention on the Rights of the Child this work maintains a critical perspective such as in challenging the assumptions of many children s rights scholars and advocates Compiling the age limits and statutory sources for all countries this book explains the broad historical origins behind most of them identifying the recurring practical challenges that affect every country and providing the first comprehensive evidence that a general principle of international law requires all nations regardless of their treaty ratifications to establish respective minimum age limits
