## **The Limits To Satisfaction:**

**Happiness and the Limits of Satisfaction** Deal Wyatt Hudson, 1996 In classical and medieval times happiness was defined as well being a notion that included moral goodness Today happiness is most often defined as well feeling and identified with subjective states such as satisfaction and peace of mind Deal Hudson argues that the prevailing view is dangerous in politics as well as ethics creating individuals with no other sense of obligation than finding personal satisfaction regardless of the moral and spiritual cost to themselves and others Hudson calls for a return to the classical tradition no one should be called happy who cannot also be called morally good However a contemporary version of happiness should also go beyond the classical notion by making room in the happy life for suffering and passion Using the history of the idea of happiness as a backdrop to a critique of contemporary views Hudson examines happiness from philosophical religious psychological sociological literary and political points of view for example he shows how the tension between the two definitions of happiness is at the heart of the Declaration of Independence The result is an excellent overview of the history of an idea as well as a compelling argument for moral and political change in our time

Hirschfeld, 2014-04-17 In *The End of Satisfaction* Heather Hirschfeld recovers the historical specificity and the conceptual vigor of the term satisfaction during the sixteenth and early seventeenth centuries Focusing on the term's significance as an organizing principle of Christian repentance she examines the ways in which Shakespeare and his contemporaries dramatized the consequences of its re or de valuation in the process of Reformation doctrinal change The Protestant theology of repentance Hirschfeld suggests underwrote a variety of theatrical plots to set things right in a world shorn of the prospect of making enough satisfacere Hirschfeld's semantic history traces today's use of satisfaction as an unexamined measure of inward gratification rather than a finely nuanced standard of relational exchange to the pressures on legal economic and marital discourses wrought by the Protestant rejection of the Catholic sacrament of penance contrition confession satisfaction and represented imaginatively on the stage In so doing it offers fresh readings of the penitential economies of canonical plays including *Dr Faustus* *The Revenger's Tragedy* *The Merchant of Venice* and *Othello* considers the doctrinal and generic importance of lesser known plays including *Enough Is as Good as a Feast* and *Love's Pilgrimage* and opens new

avenues into the study of literature and repentance in early modern England      Outdoor Recreation Benchmark 1988 ,1989
