Whisker, 1990 A survey with hundreds of illustrations of the arms making industry in Pennsylvania from its beginnings until about 1900 it focuses on the Pennsylvania long Kentucky rifle and identifies the primary schools of gun making and major technological developments Illustrated      History of Darke County, Ohio , 1914      **The Best Gun in the World** Robert S. Seigler, 2017-10-31 A thoroughly researched account of weapons innovation and industrialization in South Carolina during the Civil War and the man who made it happen A year after seceding from the Union South Carolina and the Confederate States government faced the daunting challenge of equipping soldiers with weapons ammunition and other military implements during the American Civil War In *The Best Gun in the World* Robert S Seigler explains how South Carolina created its own armory and then enlisted the help of a weapons technology inventor to meet the demand Seigler mined state and federal factory records national and state archives and US patents for detailed information on weapons production the salaries and status of free and enslaved employees and other financial records to reveal an interesting distinctive story of technological innovation and industrialization in South Carolina George Woodward Morse originally from New Hampshire was a machinist and firearms innovator who settled in Louisiana in the 1840s He invented a reliable breechloading firearm in the mid 1850s to replace muzzleloaders that were ubiquitous throughout the world Essential to the successful operation of any breechloader was its ammunition and Morse perfected the first metallic center fire pre primed cartridge his most notable contribution to the development of modern firearms The US War Department tested Morse rifles and cartridges prior to the

beginning of the Civil War and contracted with the inventor to produce the weapons at Harpers Ferry Armory. However when the war began Morse a slave holding plantation owner determined that he could sell more of his guns in the South. The South Carolina State Military Works originally designed to cast cannon produced Morse's carbine and modified muskets brass cartridges cartridge boxes and other military accoutrements. The armory ultimately produced only about 1,350 Morse firearms. For the next twenty years Morse sought to regain his legacy as the inventor of the center fire brass cartridges that are today standard ammunition for military and sporting firearms. Does justice to one of the greatest stories in American firearms history. If George Woodward Morse had not sided with the Confederacy his name might be as famous today as Colt or Winchester.
