in mind may we begin to understand the hostility of some early to mid 19th century critics to instrumental virtuosity which sometimes reached truly bizarre proportions In order to accomplish this the book looks at contemporary aesthetics and philosophy the contemporary reception of virtuosity in performance and composition and the impact of 19th century gender ideology on the reception of some leading virtuosos male and female alike *Writings on Music, 1965-2000* Steve Reich, 2002-04-11 From Reich's 1968 essay 7F Music as a gradual process which was the founding call for the development of minimalism to his work on non Western music such as the Balinese and African influences that contributed to Drumming
