BioHydrogen Oskar R. Zaborsky, 2007-08-30 The world needs clean and renewable energy and hydrogen represents an almost ideal resource Hydrogen is the simplest and most abundant molecule in the universe yet one that is a challenge to produce from renewable resources Biohydrogen or hydrogen produced from renewable resources such as water or organic wastes by biological means is a goal worthy of increased global attention and resources The purpose of BioHydrogen 97 was to bring together leaders in the biological production of hydrogen from the United States Japan Europe and elsewhere to exchange scientific and technical information and catalyze further cooperative programs Participants came from at least different countries representing academia industry and government Especially important participants were young research scientists and engineers the next generation of contributors The conference consisted of plenary presentations topical sessions posters and mini workshop discussions on key areas of biohydrogen It was designed to maximize information exchange personal interaction among participants and formulate new international initiatives BioHydrogen 97 was an outgrowth of an international workshop convened by the Research Institute of Innovative Technology for the Earth RITE and was held in Tokyo Japan November 24-25 1994 The RITE workshop was highly successful but largely limited to traditional biochemical and biological studies and not engineering research topics

Proceedings, American Philosophical Society (vol. 142, no. 3, 1998) , Energy Research Abstracts ,1979 Cardinal Choices ,2000-09 This book is a history of the complex relations between scientific advisors primarily physicists and U S presidents in their role as

decision makers about nuclear weapons and military strategy The story unsurprisingly is one of considerable tension between the experts and the politicians as scientists seek to influence policy and presidents alternate between accepting their advice and resisting or even ignoring it First published in 1992 the book has been brought up to date to include the experiences of science advisors to President Clinton In addition the texts of eleven crucial documents from the Einstein Szilard letter to President Roosevelt 1939 to the announcement of the Strategic Defense Initiative by President Reagan 1983 have been added as appendixes
