

WHAT IS OPERA?

Four centuries ago, music, theatre, and dance came together in Italy to create a new art form called opera. It soon caught on and, by 1700, it was entertaining commoners and royalty alike across Europe. Over time, the sound of its music would change, yet the essence of opera has not: accompanied by an orchestra, with scenery, costumes, and light adding drama, singers tell a story.

Music's unique power to move people is no secret, but opera's special appeal lies in the voice, arguably the most affecting of all instruments. It conveys emotion even when the lyrics are not understood, while talented voices can enliven the most familiar of scores and plots. Indeed, the pleasure of revisiting beloved operas explains how an entire art form can rest on the genius of Mozart, Verdi, and Wagner and a core repertoire of some 100 works.

Still, it remains a mystery why relatively few operas have survived and many thousands are forgotten. Some operas, sell-outs in their day, are now never performed. Others, heralded at their premieres, have become firm favourites. There are also fashions: once considered the summit of the art, French grand opera has vanished; in contrast, Renaissance and Baroque opera have been rediscovered with enthusiasm. Today, contemporary opera is a minority taste, yet works are continually being composed and a few have entered the repertoire.

Opera's stories also matter. Its scores can be recorded in studios or presented in concert version, yet opera was born as music theatre – that is, music set to a libretto for the stage. Thus, most people only remember the name of the opera's composer, yet even the greatest composers have always valued a good libretto. It may borrow its plot from Greek mythology or Roman history, from Shakespeare or Schiller, from historical epics, romantic dramas, or the occasional farce of life. More importantly, it should use the poetry of language to express a spectrum of emotions. The composer taps into all these ingredients of human drama. Thus, the greatest opera can be about violence, greed, ambition, intrigue, betrayal, reconciliation, and death, but they may also be shaped by humour, joy, passion and love. 10
