The Image And The Dream:

The Image and the Dream Chloe Gartner, 1994 **The Herald Dream** Richard Kradin, 2018-05-08 This monograph focuses on a systemic approach to dream interpretation and the unique importance of the initial dream The first dream reported in a psychoanalytic therapy session poignantly encapsulates the major issues that the patient brings to the treatment These dreams herald the trajectory of the treatment and can be interpreted in the service of psychodynamic diagnosis and prognosis The book melds aspects of Jungian dream analysis with neo Freudian analytic thought current neurobiological concepts and Buddhist psychology to yield a rich and powerful understanding of how dreams symbolize the multifaceted aspects of the psyche Multiple examples of initial dreams are discussed in detail with suggestions for how they can inform the analytic stance and serve as objects for analysis over the course of a treatment *Psychology of the Image* Michael Forrester, 2012-12-06 *Psychology of the Image* outlines a theoretical framework bringing together the semiotic concepts developed by Charles Peirce the sociological insights of Ervin Goffman and the psychoanalytic ideas of Jacques Lacan Image studies in fashion advertising photography film studies and psychology have been influenced by these theorists in significant ways The framework presented helps the reader understand how these ideas relate to the study of different domains of the image the internal imagery of dreams external images such as the photograph and image processes which span both contexts e g images we have about ourselves The topics discussed are organised into three themes The first considers mental imagery including sound and dreams The second addresses the interdependent nature of internal and external images e g the gendered self and social identity In the third theme attention turns to external images including television film photography the computer and the internet *Psychology of the Image* will be of interest to undergraduates postgraduates lecturers and researchers in the fields of psychology media studies and sociology **The Meaning of the Dream in Psychoanalysis** Rachel B. Blass, 2012-02-01 The Freudian claim that dreams are meaningful and that their meanings can be discovered through dream interpretation has in recent times come under harsh attack from both scientific and hermeneutic psychoanalytic circles In a forceful response to these critiques Rachel Blass demonstrates that while Freud and his followers have thus far failed to provide adequate justification for his dream theory such justification may now be found through an alternate and legitimate yet neglected route one that establishes both scientifically and philosophically the relationship between the self of the dreamer and that of the awake individual The implications of this argument are both practical and theoretical by providing sorely absent scientific and philosophical grounding to the very foundations of dream interpretation the book clarifies and broadens the possibilities of dream interpretation within the clinical setting and breaks new ground in the field of psychoanalytic epistemology and the philosophy of the human sciences **Dreams and Dream Reports in the Writings of Josephus** Gnuse, 2018-07-17 This volume analyzes the understanding of dreams and the corresponding literary forms used by Josephus in his writings Josephus reports dreams as either auditory message dreams

symbolic visual dreams or dream image appearances In this regard he uses the format for auditory and visual dreams found in ancient Near Eastern and biblical texts while his dream image appearance reports show familiarity with traditional Greek modes of reporting dreams Close attention is given to the following topics 1 the development of dream reports in the ancient Near East the Bible and the Hellenistic world 2 Josephus views on dreams and prophecy 3 a form critical assessment of Josephus dream reports and 4 an evaluation of Josephus dream reports which exhibit a more complex traditional historical development

Dreams and Dream Reports in the Writings of Josephus Robert Karl Gnuse, 1996 This volume evaluates the understanding of dreams and the form of dream reports in Josephus writings and it compares Josephus texts with ancient Near Eastern biblical and Hellenistic dream reports to discern Josephus sources of literary inspiration and intellectual assumptions
