most of his minor ones placing the historical novels into literary context and the other works into their genre traditions The remaining six chapters focus on his most important individual novels Each novel is analyzed for plot structure characterization and thematic elements In addition Macdonald defines and applies alternative critical perspectives from which to read each novel A genealogy table for The Immigrants series and a complete up to date bibliography of all of Fast s nearly one hundred published works as well as selected reviews and background reading make this study invaluable for research and critical understanding This study of Fast s classic works of historical fiction will aid the student and support the interdisciplinary American history literature curriculum The Undocumented Americans Karla Cornejo
