A Paradigm Lost Joanna Radwańska-Williams, 1994-01-01 The general theory of language of Mikołaj Kruszewski 1851 1887 is this book argues a lost paradigm in the history of linguistics The concept of paradigm is understood in a broadly construed Kuhnian sense and its applicability to linguistics as a science is examined It is argued that Kruszewski's theory was a covert paradigm in that his major work *Oчерк науки о языке* An Outline of the Science of Language 1883 had the potential to be seminal in the history of linguistics i e to achieve the status of a classical text or exemplar This potential was not realized because Kruszewski's influence was hindered by various historical factors including his early death and the simultaneous consolidation of the Neogrammarian paradigm with its emphasis on phonology and language change The book examines the intellectual background of Kruszewski's thought which was rooted in part in the tradition of British empiricism It also discusses Kruszewski's relationship to his teacher Jean Baudouin de Courtenay 1845 1929 his attitude towards the Neogrammarian movement in linguistics the ambivalent reception of his theory by his contemporaries and the influence of his work on the linguistic theory of Roman Jakobson 1896 1982

Analogical Modeling of Language R. Skousen, 2012-12-06 1 Structuralist Versus Analogical Descriptions ONE important purpose of this book is to compare two completely different approaches to describing language The first of these approaches commonly called structuralist is the traditional method for describing behavior Its methods are found in many diverse fields from biological taxonomy to literary criticism A structuralist description can be broadly characterized as a system of classification The fundamental question that a structuralist description attempts to answer is how a general contextual space should be partitioned For each context in the partition a rule is defined The rule either specifies the behavior of that context or as in a

taxonomy assigns a name to that context Structuralists have implicitly assumed that descriptions of behavior should not only be correct but should also minimize the number of rules and permit only the simplest possible contextual specifications It turns out that these intuitive notions can actually be derived from more fundamental statements about the uncertainty of rule systems Traditionally linguistic analyses have been based on the idea that a language is a system of rules Saussure of course is well known as an early proponent of linguistic structuralism as exemplified by his characterization of language as a self contained whole and principle of classification Saussure 1966 9 Yet linguistic structuralism did not originate with Saussure nor did it end with American structuralism Proceedings of the 7th International Conference on Language, Literature, Culture, and Education (ICOLLITE 2023) Nuria Haristiani, Yulianeta Yulianeta, Yanty Wirza, Wawan Gunawan, Ari Arifin Danuwijaya, Eri Kurniawan, Suharno Suharno, Nia Nafisah, Ernie Diyahkusumaning Ayu Imperiani, 2024-02-26 This is an open access book ICOLLITE is an annual international conference organized by the Faculty of Language and Literature Education of Universitas Pendidikan Indonesia in the fields of Language Literature Culture and Education This conference embraces interdisciplinary studies representing advances and fresh studies in the fields of language literature culture and education The aim is to bring together leading scientists researchers and academic practitioners to exchange experiences and research results on all aspects of language literature culture and education This year Globalization and Its Impacts on Language Literature and Culture Opportunities and Challenges becomes its theme Presenters and participants are welcomed to discuss and disseminate current issues and offer solutions to the challenges of our time *Publications of the Modern Language Association of America* ,1896 **Transactions and Proceedings of the Modern Language Association of America** ,1886 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography
