Literature and Law in the Middle Ages John A. Alford,Dennis P. Seniff,2019-07-17 Originally published in 1984 Literature and Law in the Middle Ages is a comprehensive bibliography on the subject of literature and law in the Middle Ages The collection was composed with the notion that early society regarded literature law and religion from the same single point of view It discusses how for many medieval poets their art existed primarily to enforce obedience to God and king and suggests that society viewed law as a chief instrument of the divine will in human affairs The book s comprehensive introduction argues that eventually these areas of diverged and became separate this bibliography covers the broad period of the Middle Ages from the 5th to the 15th century and examines this period of transition during which the process was not yet complete This bibliography will be vital resource for those studying medieval studies both in literature and history **The Inns of Greece and Rome and a History of Hospitality from the Dawn of Time to the Middle Ages** W. The High Middle Ages in England 1154-1377 Bertie Wilkinson,1978-06-22 All aspects of England in the High Middle Ages are covered including sections on social economic religious military intellectual and art history as well as on political and constitutional history From publisher description *Globalism in the Middle Ages and the Early Modern Age* Albrecht Classen,2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many

literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable *Friendship in the Middle Ages and Early Modern Age* Albrecht Classen, Marilyn Sandidge, 2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting

The Inns of Greece & Rome and a History of Hospitality from the Dawn of Time to the Middle Ages, 1972 *The Inns of Court under Elizabeth I and the Early Stuarts* Wilfrid R. Prest, 2023-01-05 Comprehensive study of the early modern inns of court based on original sources now revised and updated with recent scholarship *The Inns of Greece & Rome and a History of Hospitality from the Dawn of Time to the Middle Ages* W. Gregory, 1911 *Urban Space in the Middle Ages and the Early Modern Age* Albrecht Classen, 2009 The contributors to this new volume explore the wide gamut of characteristic features determining the rise of the city as a central living space since the high Middle Ages and extend the investigation up to the eighteenth century Historians liter
