Washington's Undersea War Shawn Shallow, 2016-02-23 For most mention of the American Revolution prompts images of British redcoats facing long lines of Colonial irregulars However much of the war took place in clandestine alleyways lonely roads and even the ocean deep We invite you to experience the war through the eyes of undercover operatives in the race to capture the underwater machine capable of changing the balance of sea power This true story was meticulously built from records and letters of key individuals including George Washington Thomas Jefferson and Benjamin Franklin

Our Naval Heroes George Eden Marindin, 1901

The Naval Route to the Abyss Matthew S. Seligmann, Frank Nägler, 2016-03-03 The intense rivalry in battleship building that took place between Britain and Germany in the run up to the First World War is seen by many as the most totemic of all armaments races Blamed by numerous commentators during the inter war years as a major cause of the Great War it has become emblematic of all that is wrong with international competitions in military strength Yet despite this notoriety the Great Naval Race has not received the attention that this elevated status would merit and it has never been examined from the viewpoint of both of its participants simultaneously and equally This volume which contains a comprehensive survey of the existing scholarship on this topic both English language and German as well as important primary source materials from a range of archives in both Britain and Germany fills this gap By putting the actions of the British Admiralty side by side with those of its German counterparts it enables the naval race to be viewed comparatively and thereby facilitates an understanding of how the two parties to this conflict interacted By offering a comprehensive range of German documents in both their original text and in English translation the book makes the German role in this conflict accessible to an English speaking audience for the first time As such it is an essential volume for any serious student of naval policy in the pre First World War era
