The Law of Psychic Phenomena Thomson Jay Hudson, 1896 **The Law of Psychic Phenomena** Thomson Jay Hudson, 1901 *The Law of Psychic Phenomena* Thomson Jay Hudson, 2017-09-08 Originally published in 1901 and republished here by Forgotten Books The Law of Psychic Phenomena A Working Hypothesis is author Thomas Jay Hudson's examination of what is here referred to as psychic phenomena namely hypnotism mental therapeutics clairvoyance ghosts and many other topics that some may consider fantastical The purpose of the book as stated by Hudson is to assist in bringing Psychology within the domain of the exact sciences While there is no disputing that psychology today enjoys the same level of academic and scientific rigour as other fields skeptics may take issue with the phenomena that the author lumps into the field of psychology Hudson begins the book with a discussion on the importance of formulating a working hypothesis before laying out his own The author argues that man has two minds an objective and subjective with the subjective mind amendable to control by suggestion and incapable of inductive reasoning It is with this hypothesis that Hudson carries out an examination of various forms of psychic phenomena This is not a book for the reason minded skeptic to enjoy Much of the text is devoted to what many would classify as the supernatural Nor does the author offer logic based arguments for skeptics rather he dismisses them outright stating I will not waste time however by attempting to prove by experiments of my own or of others that such phenomena do occur It is too late for that The facts are too well known to the civilized world to require proofs at this time The man who denies the phenomena of spiritism to day is not entitled to be called a sceptic he is simply ignorant If you are not willing to go into this book with a blanket acceptance of the supernatural you will likely take issue with many of the passages If nothing else Hudson displays a daring sense of boldness by concluding the book by tackling the subject of Christ and applying his working hypothesis for psychic phenomena to the story of the Bible While an interesting read *The Law of Psychic Phenomena* is simply too short on legitimate proof to recommend as a worthwhile exploration into the topic About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Law of Psychic Phenomena** Thomas Jay Hudson, 2014-03 This Is A New Release Of The Original 1912 Edition **The Law of Psychic Phenomena** Thomas Jay Hudson, 2007-06 In the Law of Psychic Phenomena by author Thomas Jay Hudson Hudson has attempted to create a classification of verified psychic phenomena accounts of which is found in the literature current on the subject and has tentatively formulated a working hypothesis for the systematic study of all classes of psychic phenomena Hudson has

collected a vast array of facts thus accumulated and verified and awaiting scientific classification and analysis which would seem to justify at least a tentative effort to apply to them the processes of induction to the end that the fundamental law of psychic phenomena may be discovered This is an important work for those who are interested in the writings of Thomas Jay Hudson and also those with an interest in understanding psychic phenomena **The Law of Psychic Phenomena -**

Thomson Hudson Thomson Hudson, 2007-11 I do not expect this book to stand upon its literary merits for if it is unsound in principle felicity of diction cannot save it and if sound homeliness of expression cannot destroy it My primary object in offering it to the public is to assist in bringing Psychology within the domain of the exact sciences That this has never been accomplished is owing to the fact that no successful attempt has been made to formulate a working hypothesis sufficiently comprehensive to embrace all psychic phenomena It has however long been felt by the ablest thinkers of our time that all psychic manifestations of the human intellect normal or abnormal whether designated by the name of mesmerism hypnotism somnambulism trance spiritism demonology miracle mental therapeutics genius or insanity are in some way related and consequently that they are to be referred to some general principle or law which once understood will simplify and correlate the whole subject matter and possibly remove it from the domain of the supernatural The London Society for Psychical Research whose ramifications extend all over the civilized world was organized for the purpose of making a systematic search for that law The Society numbers among its membership many of the ablest scientists now living Its methods of investigation are purely scientific and painstaking to the last degree and its field embraces all psychic phenomena It has already accumulated and verified a vast array of facts of the most transcendent interest and importance In the mean time a large number of the ablest scientists of Europe and America have been pursuing independent investigations in the phenomena of hypnotism They too have accumulated facts and discovered principles of vast importance especially in the field of mental therapeutics principles which also throw a flood of light upon the general subject of Psychology This vast array of facts thus accumulated and verified and awaiting scientific classification and analysis would seem to justify at least a tentative effort to apply to them the processes of induction to the end that the fundamental law of psychic phenomena may be discovered In the following pages I have attempted such a classification of verified phenomena accounts of which I find in the literature current on the subject and I have tentatively formulated a working hypothesis for the systematic study of all classes of psychic phenomena It will be observed that I have availed myself largely of the labors of others instead of confining myself to experimental researches of my own I have done this for two reasons first that I might avoid the accusation of having conducted a series of experiments for the purpose of sustaining a pet theory of my own and second because I hold that substantial progress cannot be made in science until one is ready to accord due credit to human integrity and to give due weight to human testimony In conclusion I desire to say that I claim no credit for this work save that which is due to an honest desire to promote the truth for its own sake Sincerely believing in the correctness of my hypothesis I have not

hesitated to follow it to its legitimate conclusion in every field which I have entered If at the close of the book I have seemed to trespass upon the forbidden field of theological discussion it was not for the purpose of sustaining any preconceived opinions of my own far from it It was because I was irresistibly led to my conclusions by the terms of my hypothesis and the inflexible logic of its application I cannot but be aware that my conclusions sometimes oppose the preconceived opinions of others But no one who accepts my hypothesis as the true one will be compelled more frequently than I have been to renounce his former convictions T J H WASHINGTON D C October 21 1892 **The Law of Psychic Phenomena** Thomson Jay
