Lemuria Una Marcotte, 2018-10-25 Before Atlantis there was Lemuria No one is certain as to when this civilization existed but an educated guess is around 300 000 BC It was a time when people began to live in communities and build shelters by the sea for water was very sacred to them The Lemurians were a highly spiritual people and practiced equality as it has never been practiced since Everyone was equal regardless of what labor they provided for the welfare and comfort of everyone else There was a Council of Elders wise men and women who offered advice and suggestions to those asking for help but even this group had no jurisdiction over anyone else in their village The Lemurians possessed a group mind where no individuality existed or was even thought about and where no one belonged to anyone else Even children did not belong to their mothers but to everyone residing in the community The concept of marriage and family simply did not exist No one owned anything either Land homes and even possessions belonged to everyone in the community It was also a matriarchal society where women were highly respected and had an equal voice with men Learning about their lifestyle and culture it quickly becomes apparent that modern humans would have a difficult time understanding the people of this ancient civilization Yet it is important for humans of today to learn about Lemuria as this shift in thinking in consciousness that is permeating the world is actually a return to this kind loving compassionate Lemurian energy The whole world is now slowly stepping up or ascending into this higher vibrational energy of love as exhibited by the earth's first civilization namely Galactic Heritage Cards Lyssa Royal Holt, 2013-04-02 The Galactic Heritage Cards were first introduced in Japan Lemuria where hundreds of Lyssa's students have since used them with profound results USING THE CARDS The overall concept of the cards is to explore the journey from unity to fragmentation polarity and back to reintegration Since each of us is part of the same one consciousness this is a holographic journey that unifies us all The card system uses the holographic concept that we are experiencing both unity and separation simultaneously The components of the cards explore this journey in a variety of ways including SPECIES or STAR SYSTEM Twenty one different species or star systems are represented in the four

suits or time streams of cards to symbolize the main archetypal groups who have influenced the development of our galactic family THEME Each card has a theme or lesson that is connected to the civilization it depicts Contemplative text and deeper commentary are presented for each card to help users understand how to apply this wisdom in their current lives ARTWORK The architect of these cards the multidimensional consciousness Germane channeled through Lyssa also assisted Hong Kong artist David Cow in the channeling of the images Contemplating the artwork allows more information and energy to be transmitted that goes beyond the text for each card The art works deeply with the subconscious and adds a powerful dimension to the user's inner work with the cards In addition to the individual card art an underlying image spans all the cards when they re laid out on a grid with 18 cards per row This image represents our journey back to integration and thus each card carries an embedded energy of unity even within the uniqueness and separate journey of each card When the final card was channeled the total number was 108 a sacred number in many traditions that reflects the idea of wholeness and completion GETTING STARTED In the accompanying booklet we offer more information the text and commentary for each card and several recommended spreads to help you get started **Atlantis and Other Lost Worlds** Frank Joseph, 2021-07-01 In a single day and night of misfortune the island of Atlantis disappeared into the depths of the sea Plato 360 B C Ever since Plato first pondered the existence of Atlantis the truth behind this infamous sunken city has captured the world Atlantis and Other Lost Worlds is the most up to date and comprehensive investigation of this ancient island written by the foremost authority on the subject Frank Joseph Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality. The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion They are revealed as the inventors of a crystal technology to surpass our own and the master builders of pyramidal monuments around the world The cultural heritage of Atlantis in the civilizations of pharaonic Egypt Bronze Age Europe Maya Mexico and Inca Peru is clearly described The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might Inside these pages you will find the answers to many intriguing questions including What is the most likely location of Atlantis How and when was Atlantis destroyed Has Japan s leading geologist found the sunken citadel of Lemuria Have Russian oceanographers found the ruins of Atlantis What are the disturbing parallels between Atlantis and our time Atlantis and Other Lost Worlds opens a new window on the ancient past offering views of Atlantis and its kindred civilizations never seen before Personal and Global Ascension - 2012 - 2017 Inelia Benz, 2015-04-16 This book is a compilation of the articles published at www ascension 101 com between the months of January 2010 and March 2015 inclusive You can use the book as an oracle asking a question then opening the book randomly or read it from beginning to end You can also use the index to find topics of interest Handbook of New Religions and Cultural Production, 2012-03-28 The cultural products of new religions and spiritualities are frequently ignored or dismissed within academia often stemming from a hesitation to acknowledge these movements as genuine This volume explores the

impact of new religions upon cultural production exemplifying the theological and spiritual principles of particular movements and demonstrating their substantial impact on wider society Contributions explore the realms of music architecture food art books films video games and more This scholarship will be of interest to those who wish to explore the gamut of modern religious expression and those who wish to broaden their knowledge of the spiritual origins of human culture Atlantis Rising 99 - May/June 2013 J.
