

THE Lesser Evil

The Lesser Evil

Marcela Prieto Rudolphy

The Lesser Evil:

The Lesser Evil Michael Ignatieff, 2013-12-03 Must we fight terrorism with terror match assassination with assassination and torture with torture Must we sacrifice civil liberty to protect public safety In the age of terrorism the temptations of ruthlessness can be overwhelming But we are pulled in the other direction too by the anxiety that a violent response to violence makes us morally indistinguishable from our enemies There is perhaps no greater political challenge today than trying to win the war against terror without losing our democratic souls Michael Ignatieff confronts this challenge head on with the combination of hard headed idealism historical sensitivity and political judgment that has made him one of the most influential voices in international affairs today Ignatieff argues that we must not shrink from the use of violence that far from undermining liberal democracy force can be necessary for its survival But its use must be measured not a program of torture and revenge And we must not fool ourselves that whatever we do in the name of freedom and democracy is good We may need to kill to fight the greater evil of terrorism but we must never pretend that doing so is anything better than a lesser evil In making this case Ignatieff traces the modern history of terrorism and counter terrorism from the nihilists of Czarist Russia and the militias of Weimar Germany to the IRA and the unprecedented menace of Al Qaeda with its suicidal agents bent on mass destruction He shows how the most potent response to terror has been force decisive and direct but just as important restrained The public scrutiny and political ethics that motivate restraint also give democracy its strongest weapon the moral power to endure when the furies of vengeance and hatred are spent The book is based on the Gifford Lectures delivered at the University of Edinburgh in 2003

The Lesser Evil Helmut Dubiel, Gabriel Motzkin, 2004-04-22 This book comprises 14 essays by scholars who disagree about the methods and purposes of comparing Nazism and Communism The central idea is that if these two different memories of evil were to develop in isolation their competition for significance would distort the real evils both movements propagated Whilst many reject this comparison because they feel it could relativize the evil of one of these movements the claim that a political movement is uniquely evil can only be made by comparing it to another movement How do these issues affect postwar interrelations between memory and history Are there tensions between the ways postwar societies remember these atrocities and the ways in which intellectuals and scholars reconstruct what happened Nazism and Communism have been constantly compared since the 1920s A sense of the ways in which these comparisons have been used and abused by both Right and Left belongs to our common history These twentieth century evils invite comparison if only because of their traumatic effects We have an obligation to understand what happened and we also have an obligation to understand how we have dealt with it

The lesser evil Iza Duffus Hardy, 1901 Autonomy and Self-Respect Thomas E. Hill, 1991-07-26 This stimulating collection of essays in ethics eschews the simple exposition and refinement of abstract theories Rather the author focuses on everyday moral issues often neglected by philosophers and explores the deeper theoretical questions which they raise Such issues are Is it wrong to tell a lie to protect someone from a

painful truth Should one commit a lesser evil to prevent another from doing something worse Can one be both autonomous and compassionate Other topics discussed are servility weakness of will suicide obligations to oneself snobbery and environmental concerns A feature of the collection is the contrast of Kantian and utilitarian answers to these problems The essays are crisply and lucidly written and will appeal to both teachers and students of philosophy **The Lesser Evil** Robert Chambers,1969 Moral Dilemmas in Medieval Thought M. V. Dougherty,2011-04-14 The history of moral dilemma theory often ignores the medieval period overlooking the sophisticated theorizing by several thinkers who debated the existence of moral dilemmas from 1150 to 1450 In this book Michael V Dougherty offers a rich and fascinating overview of the debates which were pursued by medieval philosophers theologians and canon lawyers illustrating his discussion with a diverse range of examples of the moral dilemmas which they considered He shows that much of what seems particular to twentieth century moral theory was well known long ago especially the view of some medieval thinkers that some forms of wrongdoing are inescapable and their emphasis on the principle choose the lesser of two evils His book will be valuable not only to advanced students and specialists of medieval thought but also to those interested in the history of ethics **The Lesser Evil** Victor Klemperer,2003 The third and final volume of the diaries of Victor Klemperer a Jew in Dresden who survived the war and whose 1933 1945 diaries have already been hailed as one of the twentieth century s most important chronicles In June 1945 Victor and Eva Klemperer return to their home in the Dresden suburbs a place last seen in 1940 when they were forced to leave it and live in a Jews House Feelings of fairy tale euphoria alternate with much darker moods The immediate postwar period produces shocks and revelations some people have behaved better than Klemperer had believed others much worse Back of book 50 Classic Philosophy Books Golgotha Press,2011 An anthology of 50 classic philosophy works with an active table of contents to make it easy to quickly find the book you are looking for Works include As A Man Thinketh by James Allen The Age of Reason by Thomas Paine Alcibiades I by Plato Alexandria and her Schools by Charles Kingsley An Attic Philosopher by Emile Souvestre An Enquiry Concerning Human Understanding by David Hume An Enquiry Concerning the Principles of Taste and of the Origin of our Ideas of Beauty etc by Frances Reynolds An Essay on the Beautiful by Plotinus An Introduction to Philosophy by George Stuart Fullerton The Analects of Confucius by James Legge The Analysis of Mind by Bertrand Russell The Ancient East by D G Hogarth SUN TZU ON THE ART OF WAR by Sun Tzu The Basis of Morality by Annie Besant Bergson and His Philosophy by J Alexander Gunn Beyond Good and Evil by Friedrich Nietzsche The Book of Tea by Kakuzo Okakura Book of Wise Sayings by W A Clouston The Breath of Life by John Burroughs Bushido the Soul of Japan by Inazo Nitob The Conditions of Existence as Affecting the Perpetuation of Living Beings by Thomas H Huxley The Complete Angler 1653 by Isaak Walton The Conquest of Fear by Basil King Cosmic Consciousness by Ali Nomad Creative Unity by Rabindranath Tagore The Critique of Practical Reason by Immanuel Kant Death by Maurice Maeterlinck Hints Towards the Formation of a More Comprehensive Theory of Life by Samuel Taylor Coleridge A History of Freedom of Thought by John

 David Hume The Problems of Philosophy by Bertrand Russell The Ethics by Benedict de Spinoza *Natural Law and Moral
 Inquiry* Robert P. George,1998-03-01 Germain Grisez has been a leading voice in moral philosophy and theology since the
 Second Vatican Council In this book such major thinkers as John Finnis Ralph McInerny and William E May consider issues in
 ethics metaphysics and politics that have been central to Grisez s work Grisez s reconsideration of the philosophical
 foundations of Christian moral teaching seeking to eliminate both legalistic interpretation and theological dissent has won
 the support of a number of leading Catholic moralists In the past decade moreover many philosophers outside of Catholicism
 have weighed carefully Grisez s alternatives to theories that have long dominated secular moral philosophy This book
 presents a broad spectrum of viewpoints on subjects ranging from contraception to capital punishment and considers such
 controversies as the scriptural basis of Grisez s work his interpretations of Aquinas and his new natural law theory The
 collection includes not only contributions from Grisez s supporters but also from critics of his thought from proportionalist
 Edward Collins Vacek SJ to the neo Thomist Ralph McInerny A reply by Grisez written with Joseph M Boyle Jr addresses the
 issues and viewpoints expressed while an afterword by Russell Shaw reviews Grisez s pioneering work and conveys a vivid
 sense of the philosopher s personality As Grisez s influence grows this volume will serve as an important touchstone on his
 contributions to moral and political philosophy and theology *The Morality of the Laws of War* Marcela Prieto
 Rudolphy,2023 The Morality of the Laws of War examines the modern landscape of the ethics of war Rudolphy assesses the
 conflicting theories on the legality of just and unjust combatants While doing this she proposes an alternative morality of war
 proceeding from the inescapable fact that regulating war is always a significant moral compromise *Philosophical
 Perspectives on the "War on Terrorism"* ,2007-01-01 This book responds to the Bush Administration position on the war on
 terror It examines preemption within the context of just war justification for the United States led invasion of Iraq with some
 authors charging that its tactics serve to increase terror global terrorism and concepts such as reconciliation Islamic identity
 nationalism and intervention *Ethics* Baruch Spinoza,1992-11-01 Since their publication in 1982 Samuel Shirley s
 translations of Spinoza s Ethics and Selected Letters have been commended for their accuracy and readability Now with the

addition of his new translation of Treatise on the Emendation of the Intellect this enlarged edition will be even more useful to students of Spinoza's thought

On the Improvement of the Understanding Benedict de Spinoza, 2012-11-20 Also contains Ethics Correspondence all in excellent R Elwes translation Basic works on entry to philosophy pantheism exchange of ideas with great contemporaries

The Least of All Possible Evils Eyal Weizman, 2012-06-19 Groundbreaking exploration of the philosophy underpinning Western humanitarian intervention The principle of the lesser evil the acceptability of pursuing one exceptional course of action in order to prevent a greater injustice has long been a cornerstone of Western ethical philosophy From its roots in classical ethics and Christian theology to Hannah Arendt's exploration of the work of the Jewish Councils during the Nazi regime Weizman explores its development in three key transformations of the problem the defining intervention of M decins Sans Frontiers in mid 1980s Ethiopia the separation wall in Israel Palestine and international and human rights law in Bosnia Gaza and Iraq Drawing on a wealth of new research Weizman charts the latest manifestation of this age old idea In doing so he shows how military and political intervention acquired a new humanitarian acceptability and legality in the late twentieth and early twenty first centuries

Ethics for a Brave New World, Second Edition (Updated and Expanded) John S. Feinberg, Paul D. Feinberg, 2010-11-04 Aldous Huxley's 1932 book Brave New World foresees a world in which technological advances have obliterated morality and freedom John Feinberg and Paul Feinberg in the first edition of Ethics for a Brave New World noted how Huxley landed frighteningly close to the truth Their book responded to ethical crises such as abortion euthanasia capital punishment and genetic engineering by looking to Scripture for principles to guide us through the moral quagmires of our time Now dramatically updated and expanded this edition of Ethics for a Brave New World seeks to maintain the relevance rigorous scholarship and biblical faithfulness of the first edition While many of the topics covered in the book remain the same John Feinberg has revised each chapter to keep it current with contemporary trends and to respond to the most recent scholarship There is a new chapter on stem cell research and greatly expanded material on issues such as homosexuality and genetic engineering This important resource will be a valuable guide for students and those seeking answers to ethical dilemmas

The Rationalists Rene Descartes, Benedict de Spinoza, Gottfried Wilhelm Von Leibniz, 1960-08-23 Founded in the mid 17th century Rationalism was philosophy's first step into the modern era This volume contains the essential statements of Rationalism's three greatest figures Descartes who began it Spinoza who epitomized it and Leibniz who gave it its last serious expression

Punishment and Freedom Alan Brudner, 2012-02-23 Presenting an original theory on the nature of criminal law this text provides an understanding of apparent contradictions and paradoxes within the field

Just War as Christian Discipleship Daniel M. Jr. Bell, 2009-10-01 This provocative and timely primer on the just war tradition connects just war to the concrete practices and challenges of the Christian life Daniel Bell explains that the point is not simply to know the just war tradition but to live it even in the face of the tremendous difficulties associated with war He shows how just war practice

if it is to be understood as a faithful form of Christian discipleship must be rooted in and shaped by the fundamental convictions and confessions of the faith The book includes a foreword by an Army chaplain who has served in Iraq and study questions for group use **Hollow Land** Eyal Weizman, 2012-08-07 Acclaimed exploration of the political space created by Israel's colonial occupation This new edition of the classic work on the politics of architecture and the architecture of politics appears on the fiftieth anniversary of the Six Day War which expanded Israel's domination over Palestinian lands From the tunnels of Gaza to the militarized airspace of the Occupied Territories Eyal Weizman unravels Israel's mechanisms of control and its transformation of Palestinian homes into a war zone under constant surveillance This is essential reading for those seeking to understand how architecture and infrastructure are used as lethal weapons in the formation of Israel

Criminalization R A Duff, Lindsay Farmer, S E Marshall, Massimo Renzo, Victor Tadros, 2014-12-04 The Criminalization series arose from an interdisciplinary investigation into criminalization focussing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take Developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize How should criminal wrongs be classified and differentiated How should law enforcement officials apply the law's specifications of offences The fourth book in the series examines the political morality of the criminal law exploring general principles and theories of criminalization Chapters provide accounts of the criminal law in the light of ambitious theories about moral and political philosophy republicanism and contractarianism or reflect upon on the success of important theories of criminalization by viewing them in a novel light Ideas that are fundamental to any complete theory of the criminal law liberty harm and the effect on victims are investigated in depth Sociological investigation of the criminal law grounds a critical investigation into the principles of criminalization both as a legislative matter and with respect to criminalization practices in contemporary and historical contexts The volume broadens our conceptions of the theory of criminalization and clarifies the role of the series in the development of this theory It is essential reading for all interested in legal political and social theories of criminalization
