The Letters of Ralph Waldo Emerson Ralph Waldo. Emerson, 1941-01-22 Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing s books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing s titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers Generally Trieste books are purchased singly on demand however they may also be purchased in bulk Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates

Rusk, 1939-01 Moving deftly among literary and visual arts as well as the modern critical canon Christopher Prendergast's book explores the meaning and value of representation as both a philosophical challenge What does it mean to create an image that stands for something absent and a political issue Who has the right to represent whom The Triangle of Representation raises a range of theoretical historical and aesthetic questions and offers subtle readings of such cultural critics as Raymond Williams Paul de Man Edward Said Walter Benjamin and Hélène Cixous in addition to penetrating investigations of visual artists like Gros Ingres and Matisse and significant insights into Proust and the onus of translating him Above all Prendergast's work is a striking display of how a firm grounding in theory is essential for the exploration of art and literature
