interests to look to the Exchange for long term finance and the increasing challenge of financing the Government's expenditure. At a disaggregated level the market was able to respond to changing circumstances taking advantages of opportunities and weaknesses. At an aggregated level the Exchange was not able to foresee the implications of change or to forestall unfortunate consequences. This exposed the weakness of the criminal justice system and its failure to serve as a deterrent for abuse. This study is the only book to take full account of the documents held by the National Archives in relation to the Bodkin Committee. It examines the stages by which share trading in the United Kingdom came to be a statutorily regulated activity and by which the London Stock Exchange moved from being antagonistic towards public regulation in 1914 to lobbying in 1944 for the new scheme to be implemented.
