The Liberal Cage:

The Liberal Cage Harry Clifton, 1988 **Islam after Liberalism** Faisal Devji, Zaheer Kazmi, 2017-12-01 Forged in the age of empire the relationship between Islam and liberalism has taken on a sense of urgency today when global conflicts are seen as pitting one against the other More than describing a civilizational fault line between the Muslim world and the West however this relationship also offers the potential for consensus and the possibility of moral and political engagement or compatibility The existence or extent of this correspondence tends to preoccupy academic as much as popular accounts of such a relationship This volume looks however to the way in which Muslim politics and society are defined beyond and indeed after it Reappraising the first wave of Islamic liberalism during the nineteenth century the book describes the long and intertwined histories of these categories across a large geographical expanse By drawing upon the contributions of scholars from a variety of disciplines including philosophy theology sociology politics and history it explores how liberalism has been criticised and refashioned by Muslim thinkers and movements to assume a reality beyond the abstractions that define its compatibility with Islam *John Cage* Sara Haefeli, 2017-12-06 This annotated bibliography uncovers the wealth of resources available on the life and music of John Cage one of the most influential and fascinating composers of the twentieth century The guide will focus on documentary studies archival resources scholarly research and autobiographical materials and place the composer and his work in a larger context of postmodern philosophy art and theater movements and contemporary politics It will support emerging scholarship and inquiry for future research on Cage with carefully selected sources and useful annotations **Cages of Reason** Bernard S. Silberman, 1993-06 Blending political historical and sociological analysis Bernard S Silberman offers a provocative explanation for the bureaucratic development of the modern state The study of modern state bureaucracy has its origins in Max Weber's analysis of the modes of social domination which Silberman takes as his starting point Whereas Weber contends that the administration of all modern nation states would eventually converge in one form characterized by rationality and legal authority Silberman argues that the process of bureaucratic rationalization took in fact two courses One path is characterized by permeable organizational boundaries and the allocation of information by professionals The other features well defined boundaries and the allocation of information by organizational rules Through case studies of France Japan the United States and Great Britain Silberman demonstrates that this divergence stems from differences in leadership structure and in levels of uncertainty about leadership succession in the nineteenth century Silberman concludes that the rise of bureaucratic rationality was primarily a response to political problems rather than social and economic concerns *Cages of Reason* demonstrates how rationalization can have occurred over a wide range of cultures at various levels of economic development It will be of considerable interest to readers in a number of disciplines political science sociology history and public administration Silberman has produced an invaluable densely packed work that those with deep knowledge of public administrative development will find extremely rewarding David H

Rosenbloom American Political Science Review An erudite incisive and vibrant book the product of intensive study and careful reflection Given its innovative theoretical framework and the wealth of historical materials contained in it this study will generate debate and stimulate research in sociology political science and organizational theory It is undoubtedly the best book on the comparative evolution of the modern state published in the last decade Mauro F Guillen Contemporary Sociology

The Cambridge Companion to John Cage David Nicholls,2002-08-01 John Cage 1912 1992 was without doubt one of the most important and influential figures in twentieth century music Pupil of Schoenberg Henry Cowell Marcel Duchamp and Daisetz Teitaro Suzuki among others he spent much of his career in pursuit of an unusual goal giving up control so that sounds can be sounds as he put it This book celebrates the richness and diversity of Cage s achievements the development of the prepared piano and of the percussion orchestra the adoption of chance and of indeterminacy the employment of electronic resources and of graphic notation and the questioning of the most fundamental tenets of Western art music Besides composing around 300 works he was also a prolific performer writer poet and visual artist Written by a team of experts this Companion discusses Cage s background his work and its performance and reception providing in sum a fully rounded portrait of a fascinating figure **A Peculiar People** Rodney R. Social Divides Yasmine Berriane,Marie Duboc,2020-11-25 This book offers a fresh look at the role of coalitions in contentious politics in North Africa and the Middle East based on conceptual reflexions and empirical case studies by researchers who have conducted extensive fieldwork in the region Coalitions of actors that have traditionally not been allies have become a key feature of the protest movements that have emerged across North Africa and the Middle East since 2011 But what happens when Islamists ally with Leftists workers with student unions and young engineers with local tribesmen How do coalitions form across ideological generational professional ethnic and class divides Are such collaborations transformative The authors seek to show that it is important to go beyond analyses that focus mainly on identifying the factors that led to a coalition s success or failure coalitions are moments of transformative encounter that can lead to changes affecting relations with political authorities ideological learnings repertoires of action and understandings of the notion of right Instead of analyzing coalitions and social divides as two opposite processes this book further argues that studying the alliance of social groups goes hand in hand with exploring processes of differentiation that are engineered by both political regimes and social actors Focusing on the role of coalitions in contentious politics before and after the Arab uprisings this book proposes a sociology of coalitions in the Middle East based on key empirical examples to analyze the transformations that emerged out of such alliances at the levels of repertoires of action forms of organization relations to political authorities and ideological learnings The chapters in this book were originally published as a special issue of the journal Mediterranean Politics

Cage and Singing Birds George Gardner,1905 John Cage's Concert for Piano and Orchestra Martin Iddon,Philip

Thomas,2020-05-14 Looking at one of the twentieth century s most notorious musical masterpieces John Cage s Concert for Piano and Orchestra examines Cage s compositional process its infamous performance history and its influence on philosophical ideas of what music actually is **Living Standards and the Wealth of Nations** Leszek Balcerowicz,Stanley Fischer,2006 After general discussions of the theoretical requirements for rapid catch up and the possible link between democracy and growth the book presents global case studies of both non EU and EU countries including a provocative comparison of growth in the transition economies of the CEE Central and Eastern Europe nations and the 12 non Baltic states of the former Soviet Union It then considers nominal as opposed to real convergence in the European Monetary Union Taken together the chapters present a consistent argument that reliance on market forces within an open economy in a stable macroeconomic environment with assured property rights is the key to rapid economic growth Offers detailed theoretical and empirical examinations of what makes for successful convergence This book presents global case studies of both non EU and EU countries including a provocative comparison of growth in the transition economies of the CEE Central and Eastern Europe nations and the 12 non Baltic states of the former Soviet Union A group of prominent international economists consider what makes for successful convergence what policies and economic conditions help poor countries catch up to the living standards of rich countries The question of convergence or under what conditions the per capita income levels of developing countries can catch up to those found in advanced economies is critical for understanding economic growth and development Convergence has happened in many countries and appears to be taking place now in China and India yet in general per capita income levels in the poorer countries do not converge towards those of richer countries as uniformly as the analytical models predict *Living Standards and the Wealth of Nations* which grew out of a 2003 conference on convergence hosted by the National Bank of Poland offers detailed theoretical and empirical examinations of what makes for successful convergence *Gladstone* Roy Jenkins,2011-07-06 From the New York Times bestselling author of Churchill a towering historical biography available for the first time in paperback William Gladstone was with Tennyson Newman Dickens Carlyle and Darwin one of the stars of nineteenth century British life He spent sixty three of his eighty nine years in the House of Commons and was prime minister four times a unique accomplishment From his critical role in the formation of the Liberal Party to his preoccupation with the cause of Irish Home Rule he was a commanding politician and statesman nonpareil But Gladstone the man was much more a classical scholar a wide ranging author a vociferous participant in all the great theological debates of the day a voracious reader and an avid walker who chopped down trees for recreation He was also a man obsessed with the idea of his own sinfulness prone to self flagellation and persistent in the practice of accosting prostitutes on the street and attempting to persuade them of the errors of their ways This full and deep portrait of a complicated man offers a sweeping picture of a tumultuous century in British history and is also a brilliant example of the biographer s art *Toward a New Legal Common Sense* Boaventura de Sousa Santos,2002-09 The text emphasises a need

for reconstruction of legality based on locality nationality and globality **A World Without Cages** Sharry Aiken, Stephanie J. Silverman, 2022-04-19 This book is the first collection to bring together scholars and activists working to end criminal and immigration detention Employing an intersectional lens and an impressive variety of case studies the book makes a compelling case to rethink what justice could mean for refugees citizens and everyone in between The book connects immigration detention and prison justice towards reimagining a newer better future The ten chapters probe the intersections of immigration detention with current and potential forms of citizenship membership belonging and punishments Deprivation of liberty is one of the most serious harms that someone can experience Immigration control is a nation building project where racial gender class ableist and other lines of discrimination filter and police access to permanent residence Employing a kaleidoscope of interdisciplinary backgrounds the contributors bring this focus to bear on case studies spanning North America Europe and Asia In conversation with social movements challenging police brutality the contributors are thinking through the implications of de funding the police overhauling the criminal justice system eradicating prisons penal abolitionism and ending all forms of containment carceral abolitionism Neither the prison nor the detention centre is an inevitable feature of our social lives This book collectively argues that abolishing detention could pave the way for new visions of justice to emerge The chapters in this book were originally published as a special issue of *Citizenship Studies*

Rousseau and the Limits of the Liberal International Order Joshua King, 2024-11-29 Jean Jacques Rousseau's international thought anticipates many of the political dynamics that have arisen through globalization and great power competition Rousseau and the Limits of the Liberal International Order considers Rousseau as a critic and a reformer of international politics arguing that Rousseau's account of liberty drives his approach to the international realm Rousseau's work provides an incisive critique He dismantles notions of economic rationalism rejects the preference for administration over self governance and encourages strategies of resistance as a meaningful response to great power rivalry To address these concerns Rousseau affirms an approach to international politics that is closely related to his account of political liberty For Rousseau liberty develops through one's carefully chosen obligations that encourage self rule limit dependence on others and constrain the irrational motives of politics To pursue these goals Rousseau proposes civic education and national institutions that cultivate a sense shared of humanity and limit the use of war These alternatives moderate the desire for status and establish a form of national interest directed towards contentment and pluralism rather than competition Rousseau acknowledges significant limits to these solutions Citizenship creates substantive divisions among human beings and the pursuit of national self sufficiency may leave the state vulnerable to more powerful neighbors Emphasizing these trade offs draws attention to competing sources of human obligation and to the unsatisfying ways that international politics attempts to harmonize them *Mainframe Experimentalism* Hannah Higgins, Douglas Kahn, 2023-09-01 *Mainframe Experimentalism* challenges the conventional wisdom that the digital arts arose out of Silicon Valley's technological

revolutions in the 1970s In fact in the 1960s a diverse array of artists musicians poets writers and filmmakers around the world were engaging with mainframe and mini computers to create innovative new artworks that contradict the stereotypes of computer art Juxtaposing the original works alongside scholarly contributions by well established and emerging scholars from several disciplines Mainframe Experimentalism demonstrates that the radical and experimental aesthetics and political and cultural engagements of early digital art stand as precursors for the mobility among technological platforms artistic forms and social sites that has become commonplace today Mainframe Experimentalism challenges the conventional wisdom that the digital arts arose out of Silicon Valley s technological revolutions in the 1970s In fact in the 1960s a diverse array of artists musicians poets writers and filmmakers ar Knowledge on the Move in a Transottoman Perspective Evelin Dierauff,Dennis Dierks,Barbara Henning,Taisiya Leber,Ani Sargsyan,2021-09-06 The volume investigates flows of knowledge that transcended social cultural linguistic and political boundaries Dealing with different sources such as dictionaries early printed books political advice literature and modern periodicals the case studies in this anthology cover a time frame from the 15th to the early 20th century Being concerned with a wide variety of geographical areas including the Ottoman capital Istanbul provincial settings like Ottoman Palestine and also Egypt Bosnia Crimea the Persian realm and Poland Lithuania this volume gives transepochal and transregional insights in the production transmission and translation of knowledge In so doing it contributes to current debates in transcultural studies global history and the history of knowledge **Music and the Generosity of God** Gerald C. Liu,2017-11-16 What if sounds everywhere lavish divine generosity Merging insights from Jean Luc Marion with musical ingenuity from Pierre Boulez and John Cage s 4 33 Gerald C Liu blends the phenomenological theological and musical to formulate a hypothesis that in all places soundscapes instantiate divine giving without boundary He aims to widen apprehension of holiness in the world and privileges the ubiquity of sound as a limitless and easily accessible portal for discovering the inexhaustible magnitude of divine giving **Islamic Liberalism** Halil Ibrahim Canbegi,2025-07-10 In Islamic Liberalism A Theory of Impossibility based on the Lockean Tradition Halil Ibrahim Canbegi investigates the inherent inconsistencies of Islamic liberalism by examining the philosophical and theological foundations of both liberalism and Islam Canbegi draws on Lockean liberalism asserting that John Locke s emerging liberalism is deeply rooted in theological concepts such as covenant theology natural law and the distinctive nature of Christianity itself In contrast the author argues that Islam lacks the necessary theological and intellectual framework to develop a coherent version of liberalism often termed Islamic liberalism Canbegi maintains that this concept merely represents a superficial juxtaposition of Islam and liberalism rather than a genuine synthesis Ultimately the author concludes that Islamic liberalism is merely a heterogeneous amalgamation of Islamic and liberal ideas which do not combine into a unified whole This critical analysis challenges prevailing notions and invites readers to reconsider the complex relationship between these two influential systems of thought **Deport, Deprive, Extradite** Nisha Kapoor,2018-03-27 The extradition of terror suspects

reveals the worst features of the security state In 2012 five Muslim men Babar Ahmad Talha Ahsan Khalid al Fawwaz Adel Abdul Bary and Abu Hamza were extradited from Britain to the US to face terrorism related charges Fahad Hashmi was deported a few years before Abid Naseer and Haroon Aswat would follow shortly They were subject to pre trial incarceration for up to seventeen years police brutality secret trials secret evidence long term detention in solitary confinement citizenship deprivation and more Deport Deprive Extradite draws on their stories as starting points to explore what they illuminate about the disciplinary features of state power and its securitising conditions In looking at these stories of Muslim men accused of terrorism related offences Nisha Kapoor exposes how these racialised subjects are dehumanised made non human both in terms of how they are represented and via the disciplinary techniques used to expel them She explores how these cases illuminate and enable intensifying authoritarianism and the diminishment of democratic systems *Shaolin Brew* Troy D. Smith, 2024-05-28 *Shaolin Brew* Race Comics and the Evolution of the Superhero looks at how the comic book industry developed from a white perspective and how minority characters were and are viewed through a stereotypical white gaze Further the book explores how voices of color have launched a shift in the industry taking nonwhite characters who were originally viewed through a white lens and situating them outside the framework of whiteness The financial success of Blaxploitation and Kung Fu films in the early 1970s led to major comics publishers creating for the first time Black and Asian superhero characters who headlined their own comics The introduction of Black and Asian main characters who previously only served as guest stars or sidekicks launched a new kind of engagement between comics companies and minority characters and readers However scripted as they were by white writers these characters were mired in stereotypes Author Troy D Smith focuses on Asian Black and Latinx representation in the comic industry and how it has evolved over the years Smith explores topics that include Orientalism whitewashing Black respectability politics the model minority myth and political controversies facing fandoms In particular Smith examines how fans take the superheroes they grew up with such as Luke Cage Black Lightning and Shang Chi and turn them into the characters they wished they had as children *Shaolin Brew* delves into the efforts of fans of color who urged creators to make these characters more realistic This refining process increased as more writers and artists of color broke into the industry bringing their own perspectives to the characters As many of these characters transitioned from page to screen a new generation of writers artists and readers have cooperated to evolve one dimensional stereotypes into multifaceted dynamic heroes
