The Libertarian Theology Of Freedom:

The Libertarian Theology of Freedom Edmund A. Opitz, 1999 *Faith in Freedom* Thomas Szasz, 2017-07-12 The libertarian philosophy of freedom is characterized by two fundamental beliefs the right to be left alone and the duty to leave others alone Psychiatric practice routinely violates both of these beliefs It is based on the notion that self ownership exemplified by suicide is a not an inherent right but a privilege subject to the review of psychiatrists as representatives of society In *Faith in Freedom* Thomas Szasz raises fundamental questions about psychiatric practices that inhibit an individual s right to freedom His questions are fundamental Is suicide an exercise of rightful self ownership or a manifestation of mental disorder Does involuntary confinement under psychiatric auspices constitute unjust imprisonment or is it therapeutically justified hospitalization Should forced psychiatric drugging be interpreted as assault and battery on the person or is it medical treatment The ethical standards of psychiatric practice mandate that psychiatrists employ coercion Forgoing such intervention is considered a dereliction of the psychiatrists duty to protect How should friends of freedom especially libertarians deal with the conflict between elementary libertarian principles and prevailing psychiatric practices In *Faith in Freedom* Thomas Szasz addresses this question more directly and more profoundly than in any of his previous works *The Problem and Promise of Freedom* Steven Félix-Jäger, 2025-02-18 Jesus calls us to make disciples of all the nations Many Christians believe this means enlisting soldiers in a culture war But putting faith in the service of politics risks remaking God in our own image How can the church help bring God s kingdom to earth without relying on the political structures of this world Critiquing our idolization of the values of classical Western liberalism Steven Félix Jäger seeks a renewal of the church s public witness He points out the pitfalls that stem from our obsession with individual freedom from the prosperity gospel to Christian nationalism to conformity with secular progressivism True freedom is not about individual liberty or free market economics but about flourishing in covenant with God Félix Jäger offers a public theology that challenges the church to be a holy loving and generous witness to a world bound by visions of self absorbed autonomy and materialism Inspired by Jubilee and Pentecost he ultimately constructs an alternative model for public witness rooted in the abundance of the Spirit *The Problem and Promise of Freedom* not only serves as an indispensable resource for students of religion and society but also offers urgent and clear sighted witness to the church today *Grace and Freedom* Richard A. Muller, 2020-06-29 *Grace and Freedom* addresses the issue of divine grace in relation to the freedom of the will in Reformed or Calvinist theology in the late sixteenth and early seventeenth century It with a focuses on the work of the English Reformed theologian William Perkins especially his role as an apologist of the Church of England defending its theology against the Roman Catholic polemic and specifically against the charge that Reformed theology denies human free choice **Contemporary Debates in Philosophy of Religion** Michael L. Peterson, Raymond J. VanArragon, 2020-01-15 Lively debates on controversial and compelling questions in the philosophy of religion an updated edition of the bestselling title Building upon the reputation of

the first edition the extensively revised second edition of *Contemporary Debates in Philosophy of Religion* features fifteen essays which present arguments on some of the most central and controversial topics in philosophy of religion from the discipline's most influential thinkers. Considering questions of both emerging and perennial interest from atheistic, theistic, and agnostic viewpoints, the book adopts the series structure which pairs essays espousing opposing perspectives on a particular question or theme in an engaging pro and con format. Following accessible introductions to each debate, the volume's new and newly revised contributions set the stage for thoughtful and lively discourse between philosophers in philosophy of religion and analytic theology. Debates range from vigorous disagreements between theists and their critics to arguments between theists of different philosophical and theological persuasions, highlighting points of contrast for readers while showcasing the field's leading minds in dialogue. The head-to-head chapters offer forceful advocacy for some of the most compelling ideas, beliefs, and objections in the philosophy of religion, opening the conversation up to students to weigh the arguments and engage in comparative analysis of the concepts for themselves. Written to appeal to the non-specialist as well as the professional philosopher, *Contemporary Debates in Philosophy of Religion* is ideal as both a provocative primary text for coursework in analytical theology and philosophy of religion and as a broad survey of the field for scholars and general readers with an interest in the questions which underpin contemporary philosophy of religion and theology.

Freedom, Teleology, and Evil Stewart Goetz, 2011-10-27 In *Freedom, Teleology, and Evil*, Stewart Goetz defends the existence of libertarian freedom of the will. He argues that choices are essentially uncaused events with teleological explanations in the form of reasons or purposes. Because choices are uncaused events with teleological explanations, whenever agents choose, they are free to choose otherwise. Given this freedom to choose otherwise, agents are morally responsible for how they choose. Thus, Goetz advocates and defends the principle of alternative possibilities, which states that agents are morally responsible for a choice only if they are free to choose otherwise. Finally, given that agents have libertarian freedom, Goetz contends that this freedom is integral to the construction of a theodicy which explains why God allows evil.

Oxford Studies in Philosophy of Religion Volume 8 Jonathan L. Kvanvig, 2017-09-28 *Oxford Studies in Philosophy of Religion* is an annual volume offering a regular snapshot of state-of-the-art work in this longstanding area of philosophy that has seen an explosive growth of interest over the past half century. Under the guidance of a distinguished editorial board, it publishes exemplary papers in any area of philosophy of religion. Freedom, Redemption and Communion: Studies in Christian Doctrine Oliver D. Crisp, 2021-05-20 Oliver D. Crisp studies the topics of human freedom, redemption, and communion with one another and God, which are central themes in Christian theology. The chapters of this volume are arranged according to how they would appear in a traditional dogmatics dealing with issues concerning human free will and sin, studies on the person of Christ in recent theology, and human redemption. The book ends with pieces examining two important issues in Christian practice, namely the Eucharist and prayer. Deeply engaged with the Christian tradition and

exemplifying a generous orthodoxy this work makes a constructive theological case for the vitality and importance of Reformed theology today

Yandell, 2002-01-22 Philosophy of Religion provides an account of the central issues and viewpoints in the philosophy of religion but also shows how such issues can be rationally assessed and in what ways competing views can be rationally assessed It includes major philosophical figures in religious traditions as well as discussions by important contemporary philosophers Keith Yandell deals lucidly and constructively with representative views from Judaism Christianity Islam Hinduism Buddhism and Jainism This book will appeal to students of both philosophy and religion as well as to the general reader interested in the subject Unique features of Philosophy of Religion key reading and new reading in the subject area questions at the ends of chapters a glossary of philosophical terms annotated further reading

Freedom Unlimited Jeffrey S. Hocking, 2010-10-18 How are we to understand the freedom for which Christ has set us free Gal 5 1 Could it be that we have barely glimpsed what this might mean Most theological accounts of freedom frame the discussion in terms of heteronomy or autonomy In the Protestant tradition Calvinists are known for championing the former and Arminians are credited with advocating the latter More recently open theists in significantly modifying the Arminian paradigm argue that neither tradition provides a satisfying account of human freedom and propose a more libertarian form of autonomy This book joins the debate at this point not in order to take sides but to suggest a theology that can get beyond not between the heteronomy and autonomy that seem to exhaust the present theological options Clark Pinnock serves as the chief protagonist because of his role as a leading figure in the Openness of God movement Because his own development can be described as a pilgrimage from Calvinism to Arminianism to open theism the present work is able to offer its sympathetic critique in the form of an invitation that we continue to journey in the spirit of openness beyond both heteronomy and autonomy towards a view of divine and human freedom that is covenantal participatory and unlimited

The Voice of Public Theology Ted Peters, 2022-11-07 Public theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch

Love, Freedom, and Evil Thaddeus J. Williams, 2011-01-01 The defining premise of the Relational Free Will Defense is the claim that authentic love requires free will Many scholars including Gregory Boyd and Vincent Brummer champion this

claim Best selling books such as Rob Bell's *Love Wins* echo that love cannot be forced manipulated or coerced It always leaves room for the other to decide The claim that love requires free will has even found expression in mainstream Hollywood films including *Frailty* *Bruce Almighty* and *The Adjustment Bureau* The analysis shows convincingly that the claim that authentic love requires free will does not meet the criteria of consistency compatibility with Scriptural sources and the demands of concrete encounter with problems of moral evil

Panentheism--The Other God of the Philosophers John W. Cooper, 2006-11-01 Panentheism has gained popularity among contemporary thinkers This belief system explains that all is in God as a soul is related to a body so God is related to the world In Panentheism The Other God of the Philosophers philosopher and theologian John Cooper traces the growth and evolution of this intricate theology from Plotinus to Alfred North Whitehead to the present This landmark book the first complete history of panentheism written in English explores the subject through the lens of various thinkers such as Plato Jürgen Moltmann Paul Tillich Wolfhart Pannenberg and Charles Hartshorne and discusses how panentheism has influenced liberation feminist and ecological theologies Cooper not only sketches the evolution of panentheism but also critiques it ultimately he offers a defense of classical theism This book is for readers who care deeply about theology and think seriously about their faith

Human Freedom and the Logic of Evil Richard Worsley, 2016-07-27 Worsley argues that it is rational to believe in a realist loving God in the face of evil Beginning with a critique of Alvin Plantinga he shows that human freedom is highly complex and so depends upon complex structures in nature These are both necessary for freedom but also sufficient for natural evil He offers close analysis of the evolution of the human brain The book develops a parallel argument that human evil stems from the evolution of personality

Religion and Politics in a Mediatized Society Charles A. Ebelebe, Olunifesi A. Suraj, Bellarmine A. Ezumah, 2023-05-30 Religion and Politics in a Mediatized Society Critical Analyses and Spheres of Interinfluence in Nigeria and Beyond edited by Bellarmine A Ezumah Charles A Ebelebe and Olunifesi A Suraj contextualizes the hegemonic relationship of religion and politics in Nigeria and beyond The dynamics of religion and religious practices are examined using various communication theories and paradigms to extrapolate how religion is designed packaged disseminated and interpreted among Nigerians Contributors trace the evolution and development of this problem to colonialism The contributors measure the impact of religious media messages from three perspectives the impact of the messages themselves the impact of the medium used in transmitting the message as in the McLuhan philosophy the medium is the message and the impact from the power of the source the religious or political leaders Opinion Leader who exert influence on opinion followers In this book the contributors examine how religion is considered a propagandistic venture whereby capitalism and monetary gain are the norms minimizing core religious values traditional teachings and methods of worship

Human Freedom, Divine Knowledge, and Mere Molinism Timothy A. Stratton, 2020-10-02 Does humanity possess the freedom to think and act or are we always caused and determined to think and act exactly how we think and act by things outside of our control If we are always causally

determined to think and act by things outside of our control then how can humans be genuinely responsible for any of our thoughts or following actions However if humanity is genuinely free and responsible for at least some of our thoughts and actions then how can the Christian rationally affirm the doctrine that God is totally sovereign and predestines all things In Human Freedom Divine Knowledge and Mere Molinism Timothy A Stratton surveys the history of theological thought from Augustine to Edwards and reaches surprising historical conclusions supporting what he refers to as limited libertarian freedom Stratton goes further to offer multiple arguments appealing to Scripture theology and philosophy that each conclude humanity does in fact possess libertarian freedom He then appeals to the work of Luis de Molina and offers unique arguments concluding that God possesses middle knowledge If this is the case then God can be completely sovereign and predestine all things without violating human freedom and responsibility
