**Sketches of American Life** Harriet Beecher Stowe, 1855\*      Constructing American Lives Scott E. Casper, 2018-07-25

Nineteenth century American authors critics and readers believed that biography had the power to shape individuals characters and to help define the nation s identity In an age predating radio and television biography was not simply a genre of writing says Scott Casper it was the medium that allowed people to learn about public figures and peer into the lives of strangers In this pioneering study Casper examines how Americans wrote published and read biographies and how their conceptions of the genre changed over the course of a century Campaign biographies memoirs of pious women patriotic narratives of eminent statesmen mug books that collected the lives of ordinary midwestern farmers all were labeled biography however disparate their contents and the contexts of their creation publication and dissemination Analyzing debates over how these diverse biographies should be written and read Casper reveals larger disputes over the meaning of character the definition of American history and the place of American literary practices in a transatlantic world of letters As much a personal experience as a literary genre biography helped Americans imagine their own lives as well as the ones about which they wrote and read

**The Sketch, the Tale, and the Beginnings of American Literature** Lydia G. Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne s The Scarlet Letter Melville s Moby Dick and Stowe s Uncle Tom s Cabin But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury

novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition

*Immigration, Ethnicity, and Class in American Writing, 1830-1860* Leonardo Buonomo,2013-12-04 This book examines the close relationship between the portrayal of foreigners and the delineation of culture and identity in antebellum American writing Both literary and historical in its approach this study shows how in a period marked by extensive immigration heated debates on national and racial traits during a flowering in American letters encouraged responses from American authors to outsiders that not only contain precious insights into nineteenth century America s self construction but also serve to illuminate our own time s multicultural societies The authors under consideration are alternately canonical Emerson Hawthorne Melville recently rediscovered Kirkland or simply neglected Arthur The texts analyzed cover such different genres as diaries letters newspapers manuals novels stories and poems
