Skid Road An Informal Portrait Of Seattle:

Skid Road Murray Morgan, 2018-03-15 Skid Road tells the story of Seattle from the bottom up offering an informal and engaging portrait of the Emerald City's first century as seen through the lives of some of its most colorful citizens With his trademark combination of deep local knowledge precision and wit Murray Morgan traces the city's history from its earliest days as a hacked from the wilderness timber town touching on local tribes settlers the lumber and railroad industries the great fire of 1889 the Alaska gold rush flourishing dens of vice the 1919 general strike the 1962 World's Fair and the stuttering growth of the 1970s and 80s Through it all Morgan shows us that Seattle's one constant is change and that its penchant for reinvention has always been fueled by creative if sometimes unorthodox residents With a new introduction by Pulitzer Prize winning book critic Mary Ann Gwinn this redesigned edition of Murray Morgan's classic work is a must for those interested in how Seattle got to where it is today [Skid Road: An Informal Portrait of Seattle, by Murray Morgan](#)

Mama Rose's Turn Carolyn Quinn, 2013-10-11 Hers is the show business saga you think you already know but you ain't seen nothin' yet Rose Thompson Hovick mother of June Havoc and Gypsy Rose Lee went down in theatrical history as The Stage Mother from Hell after her immortalization on Broadway in Gypsy A Musical Fable Yet the musical was 75 percent fictionalized by playwright Arthur Laurents and condensed for the stage Rose's full story is even more striking Born fearless on the North Dakota prairie in 1891 Rose Thompson had a kind father and a gallivanting mother who sold lacy finery to prostitutes She became an unhappy teenage bride whose marriage yielded two entrancing daughters Louise and June When June was discovered to be a child prodigy in ballet capable of dancing en pointe by the age of three Rose without benefit of any theatrical training set out to create onstage opportunities for her magical baby girl and succeeded Rose followed her own star and created two more in dramatic and colorful style Baby June became a child headliner in vaudeville and Louise grew up to be the well known burlesque star Gypsy Rose Lee The rest of Mama Rose's remarkable story included love affairs with

both men and women the operation of a lesbian pick up joint where she sold homemade bathtub gin wild attempts to extort money from Gypsy and June two stints as a chicken farmer and three allegations of cold blooded murder all of which was deemed unfit for the script of Gypsy Here at last is the rollicking wild saga that never made it to the stage

Historic Preservation and the Imagined West Judy Mattivi Morley, 2006-09-12 Stroll through Larimer Square in Denver or through Pioneer Square in Seattle and you feel that you're stepping into history while browsing the expensive boutiques and tourist shops But are you In this intriguing study of some of America's favorite places Judy Morley takes a fresh look at adaptive reuse efforts in cities of the former frontier Focusing on urban preservation resulting from the competing interests of architectural preservationists city planners chambers of commerce and boosters she shows how developers have often taken artistic license to refashion the western past into shopping centers and tourist traps in ways that privilege an imagined heritage over a more complex history Examining Old Town Albuquerque Larimer Square and LoDo in Denver and Pioneer Square and Pike Place Market in Seattle Morley describes the creation and marketing of western heritage under the guise of historic preservation She draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed This is the first book to systematically address issues of historic preservation and western urban growth examining the interplay of identity preservation and tourism It identifies the economic political and social issues that transformed each historic district into a place that resonated with the popular imagination Along the way Morley exposes the ironies that have attracted criticism to historic districts such as Old Town Albuquerque's celebration of Hispanic heritage even though Hispanic residents were displaced during the renovation or Larimer Square's hiding of its actual skid row past beneath a veneer of more tourist friendly history But while critics charge that historic preservation often celebrates a sanitized past Morley suggests that these locales offer both residents and visitors a window on a shared romantic history and a sense of belonging serving as vital locations for community festivals holiday events and even public gatherings in times of tragedy Historic Preservation and the Imagined West argues that although these districts did not so much preserve history as create mythic identities for their cities they have in their way reconciled the past with the needs of the future

Politics of Urban Runoff Andrew Karvonen, 2011-08-19 A study of urban stormwater runoff that explores the relationships among nature technology and society in cities When rain falls on the city it creates urban runoff that causes flooding erosion and water pollution Municipal engineers manage a complex network of technical and natural systems to treat and remove these temporary water flows from cities as quickly as possible Urban runoff is frequently discussed in terms of technical expertise and environmental management but it encompasses a multitude of such nontechnical issues as land use quality of life governance aesthetics and community identity and is central to the larger debates on creating more sustainable and livable cities In this book Andrew Karvonen uses urban runoff as a lens to view the relationships among nature technology and

society Offering theoretical insights from urban environmental history human geography landscape and ecological planning and science and technology studies as well as empirical evidence from case studies Karvonen proposes a new relational politics of urban nature After describing the evolution of urban runoff practices Karvonen analyzes the urban runoff activities in Austin and Seattle two cities known for their highly contested public debates over runoff issues and exemplary storm water management practices The Austin case study highlights the tensions among urban development property rights land use planning and citizen activism the Seattle case study explores the city s long standing reputation for being in harmony with nature Drawing on these accounts Karvonen suggests a new relational politics of urban nature that is situated inclusive and action oriented to address the tensions among nature technology and society *GEORGE S LONG (cl) ,*
