

SEEING SCIENCE THROUGH ART™

The background of the cover is a painting. It depicts a tree with a slender, human-like trunk standing on a small, rounded mound of reddish-brown earth. The tree's branches are thin and spread out, resembling a wide, flat canopy. The background shows a vast landscape with rolling hills and a body of water under a sky filled with soft, white clouds. The overall style is that of a classical or romantic landscape painting.

Sky Tree Seeing Science Through Art:

Sky Tree Thomas Locker, Candace Christiansen, 2001-08-07 A tree stands on a hill by a river As the sky changes so does the tree its branches filling with clouds stars snow birds mists and the golden spring sun One tree can mean many things Thomas Locker's lyrical text records the changes in the tree's world just as simply as a child might observe them and his magnificent paintings crystallize the natural phenomena that embellish the tree on each page Questions at the bottom of each page lead to a unique discussion in the back of the book where art and science are intertwined and further depth is added to the wonder of Sky Tree

Sky Tree Thomas Locker, 1995 A tree stands on a hill by a river its branches showing the seasons filling with changing leaves clouds snow birds mist fog and the spring sun *Sky Trees* Thomas Locker, 1995

Sky Tree Thomas Locker, Candace Christiansen, 2003 Invites children to experience the life of a tree and its relationship to the sky through storytelling art appreciation and scientific exploration

U-STARS~PLUS Science Literature Connections Mary Ruth Coleman, Ph.D., Sneha Shah-Coltrane, M.A., 2010-01-01 Science Literature Connections provides an engaging way to explore scientific ideas within literacy instruction time using 32 popular children's books Most of the selected books are readily available and many of the books have been translated into Spanish Science Literature Connections is organized around Bloom's Taxonomy to support a range of thinking levels and to scaffold learning By using these materials a teacher can create a higher level thinking environment around literature connected with science which motivates reluctant readers The science concepts are based on the National Science Education Standards and align with most states science standards Science Literature Connections was designed for Grades K-3 however many of the connections may be adapted for Grades 4-5 *Bringing Problem-Based Learning into the Science Classroom* Liz Fayer, 2010 Problem based learning helps create the needed 21st century problem solvers Both problems and solutions are complex and involve thinking skills at all levels knowledge comprehension application synthesis analysis and evaluation These skills combined with opportunities to solve real world problems both personal and societal give students the tools to be successful problem solvers back cover
