Slave Elites In The Middle East And Africa:

Slave Elites in the Middle East and Africa Tōru Miura, John Edward Philips, 2000 Specialists in Middle Eastern and African studies consider the practice of slavery in different regions from a comparative perspective dealing with key issues the ethnic origins of slave soliders and officials and the reasons for the development of the slave soldier system in comparison with non elite slaves the legal status of slave elites and the administrative roles of slave soldiers and officials the linguistic and cultural identity of slave elites and its relation to their society of origin and of residence the economy of slave elites including payment and economic activities and the relation of slave elite systems to Islamic civilization *Slavery in the Modern Middle East and North Africa* Elena Andreeva, Kevin McNeer, 2024-05-30 What is the nature of slavery as practiced and at times reintroduced over the past two centuries in the Middle East and North Africa In spite of the rich regional diversity of the areas studied from Morocco to the Indian Ocean to Iran this anthology demonstrates clear commonalities across the super region These include the regulation of slavery by Islam and local traditions the absence of a rigid racial hierarchy as in North American slavery the management of the sexuality and reproductive capacity of female slaves and views on identity and heritage among descendants of slaves Authors also examine the economic and theological underpinnings of contemporary slavery and human trafficking The book is among the first to focus on slavery across the Islamic world from the 19th century to the present a period constituting the endgame of institutionalized slavery in the region but also the persistence of forms of de facto enslavement Each chapter scrutinizes from a different vantage point institutions economics the abolitionist movement literature folklore and the moving image creating a multi dimensional picture of the phenomenon The authors have mined government archives and statistics memoirs interviews photographs drawings songs cinema and television Not only are Arabic Persian and Turkish sources leveraged but a variety of materials in minor and endangered languages such as Soqotri Balochi and Sorani Kurdish in addition to European languages The Anthropology of Elites J. Abbink, T. Salverda, 2012-12-28 Offering insightful anthropological historical contributions to the understanding of elites worldwide this book helps us grasp their ways of life and role in times of contested global inequalities Case studies include the Polish gentry the white former colonial elite of Mauritius professional elites and transnational financial elites **Slaves and Slave Agency in the Ottoman Empire** Stephan Conermann, Gül Şen, 2020-05-11 Slaves and Slave Agency in the Ottoman Empire offers a new contribution to slavery studies relating to the Ottoman Empire Given the fact that the classical binary of slavery and freedom derives from the transatlantic experience this volume presents an alternative approach by examining the strong asymmetric relationships of dependency documented in the Ottoman Empire A closer look at the Ottoman social order discloses manifold and ambiguous conditions involving enslavement practices rather than a single universal pattern The authors examine various forms of enslavement and dependency with a particular focus on agency i e the room for maneuver which the enslaved could secure for themselves or else the available options for action in

situations of extreme individual or group dependencies Slaves of One Master Matthew S. Hopper, 2015-01-01 Matthew S Hopper's wide ranging history of the African diaspora and slavery in Arabia in the nineteenth and early twentieth centuries examines the interconnected themes of enslavement globalization and empire and challenges previously held conventions regarding Middle Eastern slavery and British imperialism Linking the personal stories of enslaved Africans to the impersonal global commodity chains their labor enabled this provocative and deeply researched study contradicts the conventional historiography that regards the Indian Ocean slave trade as fundamentally different from its Atlantic counterpart and disputes the triumphalist antislavery narrative that attributes the end of the East African Persian Gulf slave trade to the efforts of the British Royal Navy *India in Africa, Africa in India* John C. Hawley, 2008-06-25 India in Africa Africa in India traces the longstanding interaction between these two regions showing that the Indian Ocean world provides many examples of cultural flows that belie our understanding of globalization as a recent phenomenon This region has had and continues to have an internal integrity that touches the lives of its citizens in their commerce their cultural exchanges and their concepts of each other and of themselves in the world These connections have deep historical roots and their dynamics are not attributable solely to the effects of European colonialism modernity or contemporary globalization although these forces have left their mark The contributors to this interdisciplinary volume come from the fields of history literature dance sociology gender studies and religion making this collection unique in its recreation of an entire world too seldom considered as such

A History of Slavery and Emancipation in Iran, 1800-1929 Behnaz A. Mirzai, 2017-05-16 The first history of slavery in this key Middle Eastern country and how it shaped the nation's unique character Slavery in the Middle East is a growing field of study but the history of slavery in a key country Iran has never before been written This history extends to Africa in the west and India in the east to Russia and Turkmenistan in the north and to the Arab states in the south As the slave trade between Iran and these regions shifted over time it transformed the nation and helped forge its unique culture and identity Thus a history of Iranian slavery is crucial to understanding the character of the modern nation Drawing on extensive archival research in Iran Tanzania England and France as well as fieldwork and interviews in Iran Behnaz A Mirzai offers the first history of slavery in modern Iran from the early nineteenth century to emancipation in the mid twentieth century She investigates how foreign military incursion frontier insecurity political instability and economic crisis altered the patterns of enslavement as well as the ethnicity of the slaves themselves Mirzai's interdisciplinary analysis illuminates the complex issues surrounding the history of the slave trade and the process of emancipation in Iran while also giving voice to social groups that have never been studied enslaved Africans and Iranians Her research builds a clear case that the trade in slaves was inexorably linked to the authority of the state During periods of greater decentralization slave trading increased while periods of greater governmental autonomy saw more freedom and peace This is a major contribution to the study of enslavement in Iran which will doubtlessly become a must read for any future studies of Middle Eastern and Islamic

enslavement and abolition as well as for any work on Iranian history in general Ehud R Toledano Tel Aviv University author of *As If Silent and Absent Bonds of Enslavement in the Islamic Middle East* While this book will be revelatory to scholars of Iran it also promises to engage with theoretical trends in the study of slavery elsewhere It frames many research questions broadly to engage with scholars of slavery in other Muslim lands as well as slavery elsewhere Kamran Scot Aghaie University of Texas at Austin coeditor of *Rethinking Iranian Nationalism and Modernity* *Slavery in Medieval and Early Modern Iberia* William D. Phillips, Jr.,2013-11-14 The enslaved population of medieval Iberia composed only a small percentage of the general populace at any given point and slave labor was not essential to the regional economy during the period Yet slaves were present in Iberia from the beginning of recorded history until the early modern era and the regulations and norms for slavery and servitude shifted as time passed and kingdoms rose and fell The Romans brought their imperially sanctioned forms of slavery to the Iberian peninsula and these were adapted by successive Christian kingdoms during the Middle Ages The Muslim conquest of Iberia introduced new ideas about slavery and effected an increase in slave trade During the later Middle Ages and the early modern period slave owners in Christian Spain and Portugal maintained slaves at home frequently captives taken in wars and sea raids and exported their slave systems to colonies across the Atlantic Slavery in Medieval and Early Modern Iberia provides a magisterial survey of the many forms of bound labor in Iberia from ancient times to the decline of slavery in the eighteenth century William D Phillips Jr examines the pecuniary and legal terms of slavery from purchase to manumission He pays particular attention to the conditions of life for the enslaved which in a religiously diverse society differed greatly for Muslims and Christians as well as for men and women This sweeping narrative will become the definitive account of slavery in a place and period that deeply influenced the forms of forced servitude that shaped the New World Invoking Slavery in the Eighteenth-Century British Imagination Srividhya Swaminathan,Adam R. Beach,2016-05-06 In the eighteenth century audiences in Great Britain understood the term slavery to refer to a range of physical and metaphysical conditions beyond the transatlantic slave trade Literary representations of slavery encompassed tales of Barbary captivity the exotic slaving practices of the Ottoman Empire the political enslavement practiced by government or church and even the harsh life of servants under a cruel master Arguing that literary and cultural studies have focused too narrowly on slavery as a term that refers almost exclusively to the race based chattel enslavement of sub Saharan Africans transported to the New World the contributors suggest that these analyses foreclose deeper discussion of other associations of the term They suggest that the term slavery became a powerful rhetorical device for helping British audiences gain a new perspective on their own position with respect to their government and the global sphere Far from eliding the real and important differences between slave systems operating in the Atlantic world this collection is a starting point for understanding how slavery as a concept came to encompass many forms of unfree labor and metaphorical bondage precisely because of the power of association *Arming Slaves* Christopher Leslie Brown,Philip D. Morgan,2008-10-01

Arming slaves as soldiers is a counterintuitive idea Yet throughout history in many varied societies slaveholders have entrusted slaves with the use of deadly force This book is the first to survey the practice broadly across space and time encompassing the cultures of classical Greece the early Islamic kingdoms of the Near East West and East Africa the British and French Caribbean the United States and Latin America To facilitate cross cultural comparisons each chapter addresses four crucial issues the social and cultural facts regarding the arming of slaves the experience of slave soldiers the ideological origins and consequences of equipping enslaved peoples for battle and the impact of the practice on the status of slaves and slavery itself What emerges from the book is a new historical understanding the arming of slaves is neither uncommon nor paradoxical but is instead both predictable and explicable
