Slavery J. B. Duff, Larry A. Greene, 1975-05 **Slavery, Its Origin and Legacy** John B. Duff, Larry A. Greene, 1975
Collection of essays by historians on the topic of slavery **The Long American Revolution and Its Legacy** Lester D. Langley, 2019-10-01 This book brings together Lester D. Langley's personal and professional link to the long American Revolution in a narrative that spans more than 150 years and places the Revolution in multiple contexts from the local to the transatlantic and hemispheric and from racial and gendered to political social economic and cultural perspectives It offers a reminder that we are an old republic but a young nation and shows how an awareness of that dynamic is critical to understanding our current political cultural and social malaise The United States of America is still a work in progress A descendant on his father's side from a long line of Kentuckians Langley grew up torn between a father who embodied the idea of the Revolution's poor white male driven by economic self interest and racial prejudices and a devoted and pious mother who saw life and history as a morality play The author's intellectual and professional encounter with the American Revolution came in the 1960s as a young historian specializing in U.S. foreign relations and Latin American history an era when the U.S. encounter with the revolution in Cuba and with the civil rights movement at home served as a reminder of the lasting and troublesome legacy of a long American Revolution In a sweeping account that incorporates both the traditional iconic literature on the Revolution and more recent works in U.S. Canadian Latin American Caribbean and Atlantic world history Langley addresses fundamental questions about the Revolution's meaning continuing relevance and far reaching legacy **Program of the ... Annual Meeting of the American Historical Association** American Historical Association. Meeting, 1975 **Slavery and Slaving in World History: 1900-1991** Joseph Calder Miller, 1999 This bibliography of 20th century literature focuses on slavery and slave trading from ancient times through the 19th century compiling listings from all Western European languages It contains over 10 000 entries The principal sections organize works by political geographical frameworks of the enslavers Subject keyword and author indexes provide immediate detailed access to the material **American History and Culture**, 1975 *El-Hi Textbooks in Print*, 1984 Program of the Annual Meeting - American Historical Association American Historical Association, 1971 Some programs include also the programs of societies meeting concurrently with the association *Teaching American History in a Global Context* Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students understanding of American history It includes a wide range of materials from scholarly articles and reports to original syllabi and ready to use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view The contributors include well known American history scholars as well as gifted classroom teachers and the book's emphasis on immigration race and gender points to ways for teachers to integrate international and multicultural education America in the World and the World in America in their courses The book also includes a Views from Abroad

section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants A comprehensive annotated guide directs teachers to additional print and online resources The Political Languages of Emancipation in the British Caribbean and the U.S. South Demetrius L. Eudell, 2003-04-03 This comparative study examines the emancipation process in the British Caribbean particularly Jamaica during the 1830s and in the United States particularly South Carolina during the 1860s Analyzing the intellectual and ideological foundations of postslavery Anglo America Demetrius Eudell explores how former slaves former slaveholders and their societies central governments understood and discussed slavery emancipation and the transition between the two Eudell investigates the public policies which addressed issues of labor control access to land and the general social behaviors of former slaves used to execute emancipation In both regions government appointed officials special magistrates in Jamaica and agents of the Freedmen s Bureau in South Carolina were crucial in implementing these policies While many former slaves were fighting for the right to be paid for their labor and to own land many officials came to view their role as part of a new civilizing mission whose goal was to eradicate the psychic damage supposedly caused by slavery Eudell concludes by examining the 1865 Morant Bay rebellion in Jamaica and the retreat from Reconstruction in South Carolina part of the larger movement of Redemption that occurred in 1877 Both of these occurrences represented the incomplete victory of emancipation Eudell argues and should provoke scholarly questions regarding the persistent thesis of U S exceptionalism
