Slow Through Eden A Novel:

Metafiction and Myth in the Novels of Peter Ackroyd Susana Onega Jaén, 1999 Providing detailed analysis of the recurrent structural and thematic traits in Peter Ackroyd's first nine novels this work sets out to show how they grow out of the tension created by two apparently contradictory tendencies These are on the one hand the metafictional tendency to blur the boundaries between story telling and history to enhance the linguistic component of writing and to underline the constructedness of the world created in a way that aligns Ackroyd with other postmodernist writers of historiographic metafiction and on the other the attempt to achieve mythical closure expressed for example in Ackroyd's fictional treatment of London as a mystic centre of power This mythical element evinces the influence of high modernists such as Ezra Pound and T S Eliot and links Ackroyd's work to transition to postmodern writers such as Lawrence Durrell Maureen Duffy Doris Lessing and John Fowles

Thomas Hardy: The Novels Norman Page, 2017-03-04 This book is designed to serve as a practical guide for students and others wishing to improve their skills in the detailed analysis and discussion of Hardy's prose texts Its aim is to sharpen readers awareness of the complexity and subtlety of Hardy's art by encouraging responsiveness to such aspects as language and style imagery and symbol descriptive and dramatic method and narrative technique At the same time extracts are considered not in isolation but in relation to the overall purposes of a highly organised text While the main focus is on four of Hardy's most widely read novels the twenty four examples of close analysis cover six major themes that are relevant to all his fiction There are also numerous references to his other writings in prose and verse The second part of the book provides in succinct form essential background material including an outline of Hardy's life and career and an account of the literary historical and intellectual contexts of his fiction As well as a guide to further reading a chapter is devoted to samples of criticism illustrating a range of approaches to the chosen texts and representing the work of important critics past and present

Recognizing the Romantic Novel Jillian Heydt-Stevenson, Charlotte Sussman, 2010-01-01 The field of literature changed dramatically at the end of the eighteenth century as under the shadow of Romanticism the novel became the most important literary genre of its day Often neglected the novels of the Romantic era puzzle critics yet are much more concerned with the unexpected the unconventional and the uncanny than their immediate predecessors or successors and their authors include some of the most important novelists of British literary history Jane Austen Fanny Burney James Hogg Mary Shelley and Sir Walter Scott among them Featuring contributions from distinguished scholars in the field Recognizing the Romantic Novel evaluates the vibrancy and centrality of the Romantic novel showcasing the important new voices and directions in the field and showing it can hold its own in the canon of literary scholarship These essays offer us a lens through which we may recognize the Romantic novel as it has never been recognized before Times Literary Supplement

Thomas Hardy's Novel Universe Pamela Gossin, 2017-03-02 In this the first book length study of astronomy in Hardy's writing historian of science and literary scholar Pamela Gossin brings the analytical tools of both

disciplines to bear as she offers unexpected and sophisticated readings of seven novels that enrich Darwinian and feminist perspectives on his work extend formalist evaluations of his achievement as a writer and provide fresh interpretations of enigmatic passages and scenes In an elegantly crafted introduction Gossin draws together the shared critical values and methods of literary studies and the history of science to articulate a hybrid model of scholarly interpretation and analysis that promotes cross disciplinary compassion and understanding within the current contention of the science culture wars She then situates Hardy s own deeply interdisciplinary knowledge of astronomy and cosmology within both literary and scientific traditions from the ancient world through the Victorian era Gossin offers insightful new assessments of *A Pair of Blue Eyes* *Far from the Madding Crowd* *The Return of the Native* *Two on a Tower* *The Woodlanders* *Tess of the D Urbervilles* and *Jude the Obscure* arguing that Hardy s personal synthesis of ancient and modern astronomy with mythopoetic and scientific cosmologies enabled him to write as a literary cosmologist for the post Darwinian world The profound new myths that comprise Hardy s novel universe can be read as a sustained set of literary thought experiments by which he critiques the possibilities limitations and dangers of living out the storylines that such imaginative cosmologies project for his time and ours

The Pace of Fiction Brian Gingrich, 2021-07-15 The Pace of Fiction redefines the literary history of the novel by analyzing its most elaborate feature its pace It moves from the rise of the novel to realism and modernism It starts by tracing the evolution of two narrative units scenes shown slowly and summaries told swiftly These units emerge from the conflict of epic and drama gain shape in the commentaries of Fielding and Goethe and become dynamically opposed in nineteenth century realism In *Middlemarch* they rotate in regular sequence summaries move swiftly until scenes slow them down scenes play out dramatically until summaries sweep them forward their movement imitates the conflict of fate and free will Over the course of the nineteenth century however scenic impulses overtake summary storytelling The reader sees the tendency already in Austen s dialogues Hawthorne s tableaux or Balzac s battering drama and finds it in Jane Eyre s placement of summaries in private scenes When Flaubert extends scenic vividness to all of his summaries and when Henry James subordinates his summaries to scenic consciousness the extreme pressure of scene upon summary brings the opposition of realist pacing to collapse But other oppositions arise in the modernisms that follow In the alternation of stasis and kinesis of drifting thoughts and everyday actions of stories and acts of storytelling in Proust Joyce Woolf Mann Hemingway pace gathers and creates meaning in new ways

Culture and Conduct in the Novels of Henry James Alwyn Berland, 1981-04-02 Analyzing Henry James conception of civilization as culture and the relationship of this conception to his major works Berland argues that James brought to his fiction the moral commitment that characterized a Puritan New England and a dedication to the aesthetic culture he found in England and in Europe He concludes that these commitments provide James with his major themes characters and fictional techniques and the two immutable Jamesian laws Europe is better than America but Americans are better than Europeans

Charles Dickens and the Form of the Novel Graham Daldry,2016-08-05 First published in 1987 While there have been commentaries on his humour his seriousness his social concerns and other specific aspects of his work such accounts have only tended to divide our

understanding of the novels to lead us to see them as failures of artistic unity In this book the author seeks to address this question of unity and find a terminology that can treat language plot and representation of reality as a coherent imaginative effort This thesis is worked out in detail with reference to several of the novels and represents a challenging re evaluation

Eternity's Ennui M.B. Pranger, 2010-10-05 Augustine articulates temporality as focus rather than duration It encompasses the shift from the future through the present to the past Yet this a causal free floating concept of time has never been applied to the shape of Augustine's own narrative in the Confessions or to that other vintage Augustinian problem predestination This book examines Augustinian temporality by experimentally projecting it onto modernist authors Kleist Henry James Kafka Beckett who are less dependent on sequential narrative and more concerned with the fragility and sustainability of voice in time Processed through this mill of unfamiliar readings the poignant problem of Augustinian time is how focus can account for digression How can one deal with an unfathomably brief notion of time while eternity's *longueur* hovers over it

The Original Frankenstein Mary Shelley, 2011-10-12 Working from the earliest surviving draft of Frankenstein Charles E Robinson presents two versions of the classic novel as Mary Shelley originally wrote it and a subsequent version clearly indicating Percy Shelley's amendments and contributions For the first time we can hear Mary's sole voice which is colloquial

fast paced and sounds more modern to a contemporary reader We can also see for the first time the extent of Percy Shelley s contribution some 5 000 words out of 72 000 and his stylistic and thematic changes His occasionally florid prose is in marked contrast to the directness of Mary s writing Interesting too are Percy s suggestions which humanize the monster thus shaping many of the major themes of the novel as we read it today In these two versions of Frankenstein we have an exciting new view of one of literature s greatest works *Directions Home* George Elliott Clarke,2012-01-01 *Directions Home* explores the trajectories and tendencies of African Canadian literature within the Canadian canon and the socio cultural traditions of the African Diaspora
